Reporting Medicare Secondary Payer Information on the Health Insurance Portability and Accountability Act of 1996 X12N 837, Created Via the Free Billing Software

Note: This article was revised to contain web addresses that conform to the new CMS website and to show they are now MLN Matters articles. All other information remains the same.

Provider Types Affected

All providers who use free billing software from Medicare for HIPAA 837

Provider Action Needed

STOP – Impact to You

All providers who use free (or low cost) billing software from Medicare for the Health Insurance Portability and Accountability Act of 1996 (HIPAA) 837 must receive a software upgrade related to Medicare Secondary Payer (MSP) from their carrier, durable medical equipment regional carrier, or intermediary. Changes included in the updated software will be required for electronic submission of such claims (when there is one primary payer to Medicare).

Note that the HIPAA 837 does not accommodate the data Medicare needs when there is more than one primary payer. Providers must submit these types of MSP claims to Medicare on paper.

CAUTION – What You Need to Know

Please be sure to submit claims in the correct format to avoid delays in claims processing.

GO – What You Need to Do

If you use the billing software supplied by a Medicare carrier or intermediary, please obtain the required software upgrade after October 4, 2004, from your carrier/intermediary to ensure accurate electronic claims processing.
