GO – What You Need to Do

Review Chapter 6, Section 30.6 of the Medicare Claims Processing Manual for details regarding the SNF Pricer. Note that a PC-based version of the SNF Pricer program may be found at <http://www.cms.hhs.gov/PCPricer/> on the CMS website.

Background

The Balanced Budget Act (BBA) of 1997 (Public Law 105-33) mandated the implementation of a per diem prospective payment system (PPS) for skilled nursing facilities (SNFs) that covers all costs (routine, ancillary, and capital) of covered SNF services furnished to beneficiaries under Part A of the Medicare program, effective for cost reporting periods beginning on or after July 1, 1998. Such claims are submitted on type of bill (TOB) 21X.

The Centers for Medicare & Medicaid Services (CMS) has previously developed an SNF Pricer program that calculates the Medicare payment rate for skilled nursing and swing bed facility services. (For cost reporting periods beginning on or after July 1, 2002, swing bed facility claims (TOB 18X) are reimbursed based on the calculations made by the SNF Pricer.)

The SNF Pricer is available electronically to the Medicare claims processing system and is updated at least annually. The SNF Pricer program can be found at <http://www.cms.hhs.gov/PCPricer> on the CMS website. The purpose of CR 3774 is to revise Chapter 6 “Skilled Nursing Facility Inpatient Part A Billing,” of the Medicare Claims Processing Manual to add Section 30.6 “Skilled Nursing Facility Prospective Payment System Pricer Software.”

Implementation

The implementation date for this instruction is August 1, 2005.
