### Flu Shot Reminder

#### It's Not Too Late to Give and Get the Flu Shot!

The peak of flu season typically occurs between late December and March; however, flu season can last until May. **Protect yourself, your patients, and your family and friends by getting and giving the flu shot.** Each office visit presents an opportunity for you to talk with your patients about the importance of getting an annual flu shot and a lifetime pneumococcal vaccination. Remember - influenza and pneumococcal vaccination and their administration are covered Part B benefits. Note that influenza and pneumococcal vaccines are NOT Part D covered drugs. For more information about Medicare's coverage of adult immunizations and educational resources, go to CMS' website:
