- This Special Edition article (SE 0612) contains helpful information about the Medicare enrollment process.

Background

Physicians, providers, and suppliers must enroll in the Medicare program in order to receive Medicare payment for services provided to its beneficiaries.

You can accomplish this enrollment by completing the Medicare enrollment application, in which you provide the information and supporting documentation needed to ascertain your qualifications for, and your eligibility to enroll in, the Medicare program.

When submitted, a designated Medicare fee-for-service contractor (known as a carrier or fiscal intermediary [FI]) will process your application and verify the information that you have provided.

To ensure timely processing of your application, make certain to completely fill out the application and provide all required supporting documentation at the time of filing. Section 17 of the Medicare enrollment application lists the types of supporting documentation that you will need to submit with your enrollment application

To obtain a list of specific supporting documentation that you must submit with your enrollment application, call or visit the Medicare fee-for-service contractor serving your area (see *Additional Information* section below.)

Be aware that, at any time during the enrollment process, your carrier or FI may request documentation to support or validate information that you have reported on your application.

Applicants are responsible for providing this documentation in a timely manner. Failure to provide documentation in a timely manner may delay your enrollment into the Medicare program.
