Independence Plus
A Demonstration Program for
Family or Individual Directed Community Services
1115 Demonstration Application

I. State Proposal Information

The State of Florida, Agency for Health Care Administration, in cooperation with the Department of Children and Families, the Department of Elder Affairs and the Department of Health, proposes to implement an Independence Plus 1115 waiver by amending the current Consumer Directed Care (CDC) Waiver. The amendment changes the design of the current CDC Waiver, primarily by ending randomization of participants and expanding the waiver statewide.

Participants in the amended waiver will consist of: 2,856 consumers participating in the current CDC Waiver (experimental or control group), 137 consumers scheduled for enrollment into the CDC Waiver from the “Choice and Control” group, along with 357 Medicaid eligibles formerly receiving care from the Aged and Adult Disabled (A/D) Waiver or Traumatic Brain Injury/ Spinal Cord Injury (TBI/SCI) Waiver. The Developmental Services (DS) Waiver, A/D Waiver and TBI/SCI Waiver may also utilize vacated “slots” to accommodate new participants.

II. General Description of the Program

The purpose of the amendment is to expand Florida’s options for consumer direction of Medicaid HCBS waiver services, allowing consumers (or their representatives), to direct their care and to control the HCBS waiver budget allocated for the consumer’s long-term care needs. Consumers will make decisions (within specified guidelines) about what type of services, equipment or other purchases will best meet their needs. Consumers will also choose their service providers, which may include independent workers, family, friends or traditional home care agencies and HCBS waiver providers.

The expansion of consumer directed care was authorized by the 2002 Florida Legislature and some program features differ from the state’s existing Consumer Directed Care Waiver (also known as “Cash and Counseling”). The changes specified by the Legislature include: the waiver will operate on a statewide basis, all participants will be required to use a fiscal intermediary and persons who render care will be required to undergo a background screening. In addition, there will be no randomization for this waiver – that is, individuals will not be assigned to a control group but rather all individuals enrolled will have the opportunity to receive a budget allowance.

The Consumer Directed Care Waiver was implemented in March 1, 2000 and has been operating for over two years. Individuals participating in the waiver prior to this amendment will begin to make the transition from the current program to the revised waiver design on the approved effective date or upon completion of their obligations to the research requirements, whichever date is later, or will be offered the choice to return to their originating HCBS waiver. Other interested individuals will be identified, considered for enrollment, and enrolled up to the enrollment cap specified in this application. Individuals may request enrollment starting on the effective date, April 1, 2003, on through the point at which the cap on enrollment has been reached or the funding agency ceases to have adequate general revenue funds available in their legislatively approved spending plan to serve additional enrollees. This amendment also includes a request for an extension to the current waiver to permit a full eight-year waiver period consistent with 1115 waiver guidelines.

III. Assurances

The program design includes the following mandatory requirements (please check all to indicate assurance):

- The program is voluntary for all eligible participants.
- A Fiscal/Employer Agent will be utilized by all participants.
- The State will comply with public notice requirements as published in the Federal Register, Vol. 59, No. 186, dated September 29, 1994 (Document number 94 -23960) and Centers for Medicare and Medicaid Services (CMS) requirements regarding Native American Tribe consultation.

IV. Waivers Requested

The following waivers are requested pursuant to the authority of Section 1115(a)(1) of the Social Security Act (Please check all applicable):

Statewideness 1902(a)(1)

To enable the State to operate the demonstration within an area that does not include all political subdivisions of the State.

Comparability 1902(a)(10)(B)

To permit the state to offer demonstration participants benefits that are not equal in amount, duration, and scope to those offered to other Medicaid beneficiaries.

Income and Resource Rule 1902(a)(10)(C)(i)

To permit the exclusion of payments received under the demonstration from the income and resource limits established under State and Federal law for Medicaid eligibility. Beneficiaries will also be permitted to accumulate financial resources in a separate account for special (approved) purchases.

X Provider Agreements 1902(a)(27)

To permit the provision of care by individuals who have not executed a Provider Agreement with the State Medicaid agency.

X Direct Payments to Providers 1902(a)(32)

To permit payments to be made directly to beneficiaries or their representatives.

X Payment Review 1902(a)(37)(B)

To the extent that prepayment review may not be available for disbursements by individual beneficiaries to their caregivers/providers.

Section 1115(a)(2) authority of the Social Security Act is requested for the following expenditures to be made by the State under the demonstration (which are not otherwise included as expenditures under Section 1903) for the period of the demonstration to be regarded as expenditures under the State's Title XIX plan.

Note: Checking the appropriate box(es) will allow the State to claim Federal Financial Participation for expenditures that otherwise would not be eligible for Federal match.

X Expenditures for demonstration caregiver services provided by members of the demonstration participant's family to the participant.

X Expenditures to provide services that are not covered under the State Plan as demonstration services, i.e., to provide for training and fiscal/employer agent services as a part of the demonstration design.

X Expenditures for prepayment to demonstration participants for demonstration services prior to the delivery of those services.

Administrative Costs

The DOEA provides the core administrative functions for this waiver.

The Developmental Disabilities program does not anticipate incurring new costs related to this amendment. The DD program has estimated that a total of 14 full-time equivalents (FTEs) in the 14 districts/regions (1 FTE per district/region) will be needed to administer the program as amended. The 14 FTEs administering the current CDC Waiver will be sufficient to accommodate new enrollees. Therefore, no new staff will be required.

The Department of Health is anticipating enrollment of a limited number of consumers from their existing HCBS waiver program and does not expect to incur new costs specific to the amendment at the present time.

A total of \$676,195 will be expended annually for program administration. The annual expenditures detailed below are effective July 1, 2003, consistent with the State's fiscal year.

Category	State Funds	Federal Funds	Total
Salaries for Program Staff	\$101,137.50	\$101,137.50	\$202,275.00
Other Personnel Services (OPS): program staff	\$12,918.50	\$12,918.50	\$25,837.00
OPS Outreach Staff	\$5,000.00	\$5,000.00	\$10,000.00

Total Expense	\$170,943.50	\$170,943.50	\$341,887.00
OCO/Capital Items	\$10,000.00	\$10,000.00	\$20,000.00
Total Direct	\$299,999.50	\$299,999.50	\$599,999.00
Indirect Costs	\$38,098.00	\$38,098.00	\$76,196.00
Grand Total	\$338,097.50	\$338,097.50	\$676,195.00

VI. Budget Neutrality

- The attached budget shell relies on the model that the demonstration expenditures will not exceed what would have been incurred without the demonstration (see Flc+camendbnprojection.xls).
- The State assures that the aggregate cost of services provided herein will be no more than 100% of the cost to provide these services without the waiver. The plan of care and budget for plan of care will be developed in the demonstration exactly as they would have been developed without the waiver. Procedures for determining the amount, duration, and scope of Personal Care services are identical for Personal Care recipients, regardless of whether or not they are part of this voluntary demonstration program.

VII. Additional Requirements

In addition to the above requirements, the State agrees to the Section 1115 *Independence Plus: A Demonstration Program for Family or Individual Directed Community Services Special Terms and Conditions (STCs) of Approval*, and agrees to amend the Operational Protocol document as described by the STCs. During CMS's review and consideration of this demonstration amendment request, using the Model STCs, the state will work with CMS to develop STCs that are specific to this request that will become part of the approval of the demonstration amendment.
