

We have updated the OCE edit list for radiopharmaceuticals that are required to be present on a claim with a diagnostic nuclear imaging procedure. Specifically, we have made the following edits:

1. We have included therapeutic radiopharmaceutical A9517 in the list of acceptable radiopharmaceuticals
2. We have removed the following four radiopharmaceuticals from the list of acceptable radiopharmaceuticals: A9576, A9577, A9578, A9699
3. We have removed procedure code 78615 from the diagnostic nuclear imaging procedure list.
