

Qualified Registries for 2008 PQRI Reporting

CMS is pleased to announce the registries that have become “qualified” to submit quality data to CMS on behalf of their eligible professionals for 2008 PQRI reporting (see table below). Each of these registries has gone through a thorough vetting process including checking their capability to provide the required PQRI data elements, reviewing a measure flow (this checks to see whether the registry calculates the measure’s reporting and performance rates correctly), and transmitting the required information in the requested file format (XML). While the listed registries successfully completed the vetting process, CMS cannot guarantee that any or all of the listed registries will be successful in providing the required information on behalf of their providers for the possible payment incentive. In providing this list however, CMS believes that it is highly likely each of these registries will be successful with their data submission.

Eligible professionals who wish to participate in 2008 PQRI using one of the registry-based options should check with the specific registry they are using or intend to use to verify which measures, reporting periods and options the registry intends to report to CMS on their behalf.

Registry Name	Website
American Board of Family Medicine, Inc	www.theabfm.org
American Osteopathic Association	www.do-online.org OR https://www.do-online.org/index.cfm?PageID=gov_pgrmain
