

Variable Col Len Format Frequency ComQues# FacQues# Variable Type & Label

This file contains longitudinal weights, including general-purpose weights and a series of replicate weights. All weights have been adjusted for nonresponse. There is one non-zero weight for each individual who completed interviews in two successive years (current and first preceding year); there is a missing value (".") for all others. Together, there is one record for every person who completed an interview in the current year.
