

Variable Col Len Format Frequency ComQues# FacQues# Variable Type & Label  
 -----

The Survey Health Status and Functioning file includes data about the sample person's health including height and weight, self-assessments of vision and hearing, history of medical conditions, functioning, among others.

From 1992 through 1996, this file contained one record for each person who completed an interview whether in the community or facility. This changed in 1997 when the facility instrument was converted to a Computer-Assisted Personal Interviewing format. Since then, this file contains data from community interviews only; RIC 2F contains similar data from facility interviews.

RIC	1	2			C SURVEY HEALTH STATUS & FUNC RECORD
VERSION	3	1			C VERSION NUMBER
