

Medicare Partnerships for Quality Cardiovascular Services Demonstration

APPLICATION SCORING GUIDELINES

These guidelines are intended to assist the technical expert in conducting a fair and consistent review of applications. Medicare Partners provide high quality, consistent clinical care, and have the capacity to handle all types of patients and complications. They exhibit an active commitment to ongoing quality improvement and they employ the information systems and organizational and administrative structures necessary to support high quality, coordinated, cost effective care.

Applications are structured and scored based on 11 clinical and organizational criteria. Each criterion has been assigned a weight ranging from 2.5 – 15 percent that indicates its importance in identifying a Medicare Partner. A higher weight indicates a criterion with more importance in defining a quality partner. High ranking criteria include program volumes, mortality and complication outcomes, quality management, and caregiver team experience and education. There is no pre-determined score an applicant must achieve in order to be recommended; however, applicants are expected to meet the minimum procedure volumes listed below:

<i>Procedure Category</i>	ICD 9 CM Procedure Codes	Minimum Annual Hospital Volume (Patients)
Adult Cardiac Surgery: CABG, Valves	<i>Valves</i> -35.10-35.14; 35.20-35.28, 35.33	400
	<i>CABG</i> -36.10-36.17, 36.19	
Percutaneous Coronary Interventions (PCI)	35.96,36.01,36.02,36.05, 36.07, 36.09, 37.34	500

Scoring

Raw scores for each criterion range from 0 – 5 in whole numbers, with 0 indicating the applicant does not meet minimum generally acceptable standards for the criterion and 5 indicating the applicant exceeds generally acceptable standards for the criterion.

The application is divided into 11 sections corresponding to the clinical and organizational criteria. However, reviewers should feel free to consider any relevant information provided in the application, regardless of where it is found, in scoring each of the sections. Evaluators should thoroughly review each application before scoring. When recording scores, include notes regarding applicants’ particular strengths and weaknesses related to each criterion, as appropriate. The CMS project officer is readily available to answer any questions you may have about the scoring criteria.

Raw scores for each criterion will be weighted, then all weighted scores will be totaled to obtain an overall weighted score for the application. Since there is no minimum or maximum number of applications that should be recommended, panelists should judge each application on its individual merits.

Panel Discussion Meetings

Primary and secondary readers will summarize each application, then the floor will be opened to the panel for further discussion. The primary reader should be prepared to describe the application, discuss the strengths and weakness of the application by criterion, and share a recommendation regarding whether or not he/she believes the applicant should be chosen as a Medicare Partner, based on the quality criteria examined. The secondary reader should be prepared to either confirm or challenge the primary reader's interpretation, culling out any additional or interesting material of note in the application.

During panel discussion, reviewers will be given an opportunity to revise their scores and/or comments. (Using a pencil when scoring the applications will make this easier.) Each reviewer will then be asked whether or not to recommend the applicant as a Medicare Partner, based on the application review and scores given. Individual reviewers' scores will not be averaged. CMS will consider the recommendations and scores of each panelist in making a final determination on each application.

Applicant Facility Name: _____

Reviewer ID: _____

Date of Panel Review: _____

Scoring Summary

No	Criterion	Weight	Score	Weighted Score
1	Annual Program Volumes and Appropriateness of Intervention	15%		
2	Mortality and Complications	15%		
3	Quality Management Activities	15%		
4	Functional Status	5%		
5	Utilization Management	5%		
6	Customer Satisfaction	5%		
7	Promotion of New Knowledge	2.5%		
8	Cardiac Care Team Education and Experience	15%		
9	Range of Services	10%		
10	Cardiac Care Management and Organization	10%		
11	Patient Services and Community Outreach	2.5%		
	Total	100%		

General Comments:

Panelist Recommendation:

Applicant IS Recommended

Applicant is NOT Recommended

Criterion I

Annual Program Volumes and Appropriateness of Intervention (Weight = 15%)

This criterion reflects minimum hospital and individual physician volumes as well as activities the applicant undertakes to measure the appropriateness of clinical interventions.

Comments					
Raw Score:		x Weight:	0.15	= Weighted Score:	

Criterion II

Mortality & Complications (Weight = 15%)

This criterion emphasizes the importance of being able to measure and track mortality and morbidity rates on a risk-adjusted or risk-stratified basis for each procedure, and the importance of applicants auditing the quality of their data, monitoring it, and comparing it to some external benchmark(s).

Comments					
Raw Score:		x Weight:	0.15	= Weighted Score:	

Criterion III

Quality Management Activities (Weight = 15%)

This criterion specifies the type of quality improvement structures and processes that should be in place for a Medicare Partner, including who should be represented in morbidity and mortality conferences, the existence of external peer review, and the use of clinical pathways.

Comments					
Raw Score:		x Weight:	0.15	= Weighted Score:	

Criterion IV

Functional Status (Weight = 5%)

This criterion reflects the importance of overall improvement in patients' health after intervention. Functional status evaluations using disease appropriate tools and results shared with providers are emphasized.

Comments					
Raw Score:		x Weight:	0.05	= Weighted Score:	

Criterion V

Utilization Management (Weight =5%)

This criterion evaluates the facility's efforts to track and trend readmissions and emergency room visits post-discharge, and to take follow-up action as appropriate through a CQI process.

Comments					
Raw Score:		x Weight:	0.05	= Weighted Score:	

Criterion VI

Customer Satisfaction (Weight = 5%)

"Customer" here includes patients as well as referring and participating providers. Selected sites are expected to measure satisfaction and use these data to improve services.

Comments					
Raw Score:		x Weight:	0.05	= Weighted Score:	

Criterion VII

Promotion of New Knowledge (Weight = 2.5%)

A Medicare Partner is expected to promote the advancement of knowledge in cardiac care. However, this does not require that the program have its own teaching program or be an affiliate of another program.

Comments					
Raw Score:		x Weight:	0.025	= Weighted Score:	

Criterion VIII

Cardiac Care Team Education and Experience (Weight =15%)

Specialty-specific minimum procedural volume requirements are specified (see program volumes). In addition, this criterion establishes "value-added" physician qualifications (turnover, years experience, etc.), which indicate stability within the center's core physician staff. Data for non-physician cardiac staff allow reviewers to better evaluate program stability.

Comments					
Raw Score:		x Weight:	0.15	= Weighted Score:	

Criterion IX

Range of Services (Weight =10%)

The applicant is expected to provide a substantial range of services and be able to handle a full range of patients and potential complications.

Comments					
Raw Score:		x Weight:	0.10	= Weighted Score:	

Criterion X

Cardiac Care Management and Organization (Weight = 10%)

This criterion focuses attention on the infrastructure and leadership required for a well-managed cardiac care program. Programs with strong leadership involved in the financial as well as clinical administration are more likely to be successful demonstration sites.

Comments					
Raw Score:		x Weight:	0.10	= Weighted Score:	

Criterion XI

Patient Services and Community Outreach (Weight = 2.5%)

This criterion is intended to reflect a service orientation toward patients and the community, as reflected in the amenities they provide (e.g., housing and transportation) and other community outreach activities.

Comments					
Raw Score:		x Weight:	0.025	= Weighted Score:

Instructions

All responses will be considered confidential and used solely for the purpose of deciding which applicants will be invited to participate in the demonstration. However, if selected as a demonstration site, non-proprietary information may be subject to public disclosure under the Freedom of Information Act.

Where data is requested by year, please provide the most recent period for which complete data is available (fiscal or calendar year) and, if fiscal year, specify the time period for which the information applies.

When reporting by ICD-9-CM procedure code or DRG code, please use the following codes, as applicable. Please provide data at the most specific level at which it is available.

	ICD-9-CM Procedure Codes¹	DRGs²
CABG Surgery	36.10, 36.11, 36.12, 36.13, 36.14, 36.15, 36.16, 36.17, 36.19	106, 107, 109
Valve Surgery	35.00, 35.01, 35.02, 35.03, 35.04, 35.10, 35.11, 35.12, 35.13, 35.14, 35.20, 35.21, 35.22, 35.23, 35.24, 35.25, 35.26, 35.27, 35.28	104, 105
Thoracic Aorta Surgery	38.45	110, 111
CABG/Valve Combination Surgery	36.10, 36.11, 36.12, 36.13, 36.14, 36.15, 36.16, 36.17, and/or 36.19 with 35.00, 35.01, 35.02, 35.03, 35.04, 35.10, 35.11, 35.12, 35.13, 35.14, 35.20, 35.21, 35.22, 35.23, 35.24, 35.25, 35.26, 35.27, 35.28	106, 107, 109
CABG/Thoracic Aorta Combination Surgery	36.10, 36.11, 36.12, 36.13, 36.14, 36.15, 36.16, 36.17, and/or 36.19 with 38.45	106, 107, 109
Valve/Thoracic Aorta Combination Surgery	35.00, 35.01, 35.02, 35.03, 35.04, 35.10, 35.11, 35.12, 35.13, 35.14, 35.20, 35.21, 35.22, 35.23, 35.24, 35.25, 35.26, 35.27, 35.28 with  	104, 105
PCI	36.01, 36.02, 36.03, 36.04, 36.05, 36.06, 36.07, 36.09	516, 517, 518, 526, 527
Diagnostic Cardiac Catheterization	37.21, 37.22, 37.23	N/A for this application

Responses to narrative questions should be kept to the recommended response length as suggested. They should specifically address the question asked. Supplemental material may be included so long as it is directly responsive to one of the questions in the lication. Please indicate on any supplemental material the section number and question number it addresses.

Applicants must submit one nbound original and two (2) complete paper copies of the application, attachments and supplemental materials. One (1) electronic copy of the application should be submitted on the enclosed disk.

1 The International Classification of Diseases, 9th Revision, Clinical Modification
2 DRG grouper version 20, effective Federal fiscal year 2003 (10/1/2002 – 9/30/2003)

Applicant Information

Hospital Name: _____

Hospital Medicare Provider Number: _____

Physical Address:

Mailing Address (if different):

Fiscal Intermediary: _____

Carrier Used by Physicians Practicing At this Hospital: _____

Contact Person & Title: _____

Telephone: _____

Fax: _____

Email Address: _____

Checklist for Application Submission

- 1. Cover letter signed by the most senior hospital official:
 - a. attesting to the accuracy of the information provided in the application,
 - b. affirming the administrative and billing capabilities required under this demonstration, and
 - c. stating that the hospital's interest in participating has the approval and the support of its governing body, medical staff and other appropriate committees
- 2. Cover letter signed by relevant physician groups and departments involved affirming their understanding of and support for the demonstration
- 3. One (1) unbound original and two (2) complete paper copies of the application (including all attachments and supplemental materials)
- 4. One (1) completed disk of the application

Background Data & Supporting Information

1. Please select the phrase that best describes your facility.

- General Medical/Surgical Hospital
- Heart Center
- Other (Please specify): _____

2. Please indicate the beginning month of your fiscal year (FY) time period. Beginning month: _____

3. Complete the following table for the most recent 3 year period. Indicate fiscal year or calendar year.

Table 1: Facility Capacity

<input type="checkbox"/> FY: ____/____/____ - ____/____/____ <input type="checkbox"/> CY	2000	2001	2002
Total Number of Beds <i>(exclude OB, nursery, sub-acute & long term care)</i>			
Total Discharges <i>(exclude OB, nursery, sub-acute & long term care)</i>			
Total Medicare Discharges <i>(subset of total discharges, above)</i>			

4. Please provide copies of the following documents.

Attached

- a) A map indicating your primary service area
- b) Reports from the past two years of any and all databases in which you participate for tracking cardiac outcomes
- c) Reports from the past two years documenting how you regularly track mortality rates for all of your patients
(provide only if not included in b) above)
- d) Reports from the past two years documenting how you regularly track morbidity rates for all of your patients
(provide only if not included in b) above)
- e) If hospital outcomes reporting is mandatory in your state, reports from the past two years
- f) Your current cardiac care quality improvement plan
- g) A list of all patient clinical pathways, guidelines or protocols in use in your cardiac program (Indicate which pathways are used for "common" complications for cardiac patients)
- h) Three examples of patient clinical pathways, guidelines or protocols currently in use in your cardiac care program
- i) Your most recent cardiac pathway variance report
- j) The final report for one quality improvement project within the last three years related to the cardiac services covered under this demonstration
- k) Your hospital patient safety plan
- l) Your hospital medical error reduction plan
- m) Your most recent patient satisfaction survey report
- n) Your most recent provider satisfaction survey report

- o) CVs for each of your Cardiac Care Program leaders (Directors and Section Chiefs)

CLINICAL AND ORGANIZATIONAL QUALITY CRITERIA

Section I. Annual Program Volumes & Appropriateness of Initial Intervention

1. Please indicate how you measure appropriateness *pre-procedure*.

- ACC/AHA Criteria
- Do not measure appropriateness pre-procedure ([Skip to question 4](#))
- Other ([Please specify](#)) _____
- _____

2. How long have you been measuring appropriateness pre-procedure?

- 1 year or less
- 2 years
- 2 – 5 years
- > 5 years

3. Complete the following table for the most recent two year period. Indicate fiscal year or calendar year.

Table 2: Total Program Volume by DRG and ACC/AHA Appropriateness Criteria

Section II. Mortality & Complications

1. In which national, regional, or local outcomes tracking database do you currently participate? How long have you participated?

Participate No. of Yrs/Mos

- Do not currently participate
- Society for Thoracic Surgery (STS) [\(Skip to question 3\)](#)
- American College of Cardiology (ACC) [\(Skip to question 3\)](#)
- Northern New England Cardiovascular Cooperative Group (NNECG) [\(Skip to question 3\)](#)
- State Mandated Database [\(Skip to question 3\)](#)
- Department of Veterans Affairs (VA) [\(Skip to question 3\)](#)
- Other [\(Please specify, then skip to question 3\)](#)

2. Answer the questions in the following table by checking off your 'Yes' or 'No' response. [Complete this table only if you responded, "Do not participate" to question #1 above.](#)

Table 4: Internal Mortality and Complications Outcomes Tracking

		N	Y	If Yes, Explain
a. Do you track rates internally? If no for both, skip to question #3.	Mortality	<input type="checkbox"/>	<input type="checkbox"/>	Complete the remaining Mortality-related questions in this table.
	Complications	<input type="checkbox"/>	<input type="checkbox"/>	Complete the remaining Complication-related questions in this table.
b. Do you compare these rates to external benchmarks?	Mortality	<input type="checkbox"/>	<input type="checkbox"/>	Which ones and how often?
	Complications	<input type="checkbox"/>	<input type="checkbox"/>	Which ones and how often?

		N	Y	If Yes, Explain
c. Do you risk adjust/stratify these rates?	Mortality			Check off the risk factors used. <u>CABG/Valve</u> <input type="checkbox"/> Age <input type="checkbox"/> Gender <input type="checkbox"/> Left main disease <input type="checkbox"/> No. of vessels <input type="checkbox"/> Urgency of operation <input type="checkbox"/> Prior surgery <input type="checkbox"/> Ejection fraction <input type="checkbox"/> Other (please specify) _____ _____ _____
	Complications			Check off the risk factors used. <u>CABG/Valve</u> <input type="checkbox"/> Age >75 years <input type="checkbox"/> History of hyperlipidemia <input type="checkbox"/> Hypertension <input type="checkbox"/> Metabolic syndrome <input type="checkbox"/> Obesity <input type="checkbox"/> Diabetes <input type="checkbox"/> Prior surgery <input type="checkbox"/> Smoking <input type="checkbox"/> Family history <input type="checkbox"/> Other (please specify) _____ _____ _____

6. Complete the following table for the most recent two year period. Indicate fiscal year or calendar year.

Table 6: Cardiac Procedure Complication Rates (Number and Percent)^{1,2} by ICD-9-CM Procedure Code

Instructions:															
1. Sort all complications by ICD-9-CM procedure code as identified in the instructions on Page 1. The total number of complications may be greater than the total number of patients. 2. Each complication percentage should be based on the total number of patients receiving the procedure, not the total number of patients experiencing that complication. 3. Renal dysfunction is defined as serum creatinine \geq 2 mg/dL or an increase of 0.7 mg/dL. 4. AMI is defined as at least a five-fold increase in CK MBs. 5. Significant vascular complications include aortic dissection, iliac/femoral dissection, and arterial embolus requiring treatment. 6. Failed PCI requiring urgent CABG is defined by the ACC as an unplanned transfer from the cath lab to the operating room. 7. Total patients receiving procedure should equal the volumes reported in Table 3. 8. Percent total patients with \geq 1 complication should be based on the total number of patients receiving the procedure. 9. Include both inpatients and outpatients, Medicare and non-Medicare.

Section III. Quality Management (TQM/CQI) Activities

1. How often is your cardiac care-specific quality improvement (QI) plan reviewed and/or revised?

- Do not have a QI plan specific to cardiac care ([Skip to question #3](#))
- Quarterly
- Annually
- Every 2 years
- Other ([Please specify](#)) _____

2. Who participates in this review of your cardiac care QI plan?

- Program Director
- Program Medical Director
- Cardiology and/or Cardiac Surgery Nurse Managers
- Cardiac Care QI personnel
- Physician staff
- Nursing staff
- Other ([Please specify](#)) _____

3. How often do you have cardiac-specific M&M conferences?

- Do not have M&M conferences specific to cardiac care ([skip to question #6](#))
- Weekly
- Monthly
- Quarterly
- Other ([Please specify](#)) _____

4. Please select the departmental level at which your cardiac Morbidity and Mortality (M&M) conferences are conducted.

- Cardiology only
- Cardiac Surgery only
- Combined Cardiology/Cardiac Surgery
- Non Cardiac-Specific

5. Who participates in your cardiac M&M conferences?

- Cardiology
- Cardiac Surgery
- Anesthesiology
- Other medical specialties caring for cardiac patients
- Other (Please specify) _____

6. Who participates on your multidisciplinary cardiac QI committee (CQIC)?

- Do not have a multidisciplinary CQIC ([Skip to question #8](#))
- Program Director
- Program Medical Director
- Cardiology and/or Cardiac Surgery Nurse Managers
- Cardiac Care QI personnel
- Physician staff
- Nursing staff
- Other (Please specify) _____

7. Does the CQIC conduct the following reviews?

Yes No

- Cardiac care practices
- Use of and adherence to clinical pathways
- Other (Please specify) _____

8. How often does an external peer review body review the outcomes of your cardiac QI studies?

- No external review body reviews our cardiac QI study results ([Skip to question #10](#))
- Quarterly
- Annually
- Other (Please specify) _____

9. What factors are reviewed by the external peer review body?

- Deaths
- Appropriateness of initial interventions
- Re-intervention rates
- Case mix
- Other (Please specify) _____

10. Please answer the following questions about your use of clinical pathways.

Yes No

10a. Do you use clinical pathways to plan and/or manage cardiac patient care? [\(If no, skip to Section IV\)](#)

10b. Do you measure pathway variance (that is, the percentage of patients who deviate from the pathway)? [\(If no, skip to question #10d\)](#)

10c. What is your average clinical pathway variance rate for cardiac patients? _____

10d. How many clinical pathways do you use for cardiac patients? _____

10e. What percentage of your cardiac patients is covered by clinical pathways?

0% -19%

20%-39%

40%-59%

60%-79%

80%-100%

10f. How often are pathways reviewed and updated?

Quarterly

Semi-annually

Annually

Every 2 Years

Other [\(please specify\)](#)

10g. Please provide an example of how pathway variance reports are incorporated into your cardiac QI program. [\(Limit your response to 200 words or less.\)](#)

Section IV. Functional Status

1. When do you measure functional status on your cardiac care patients? (Check all that apply)

Do not measure functional status on our cardiac care patients [\(Skip to Section V\)](#)

Prior to cardiac intervention

Prior to discharge

Post discharge

Other [\(Please specify\)](#) _____

2. What tool(s) do you use to measure functional status?

3. Please give a specific example of how functional status data is used to improve care. [\(Limit your response to 200 words or less.\)](#)

Section V. Utilization Management

1. Please answer the following utilization management questions.

- | | <u>Yes</u> | <u>No</u> | |
|-----|--------------------------|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1a. | <input type="checkbox"/> | <input type="checkbox"/> | Do you track readmission rates? (If no, skip to question #1c) |
| | <input type="checkbox"/> | <input type="checkbox"/> | Do you include visits to your Emergency Department for treatment of cardiac events in your tracking of readmissions? |
| | <input type="checkbox"/> | <input type="checkbox"/> | Do you include Observation Unit visits for treatment of cardiac events in your readmissions tracking? |
| | <input type="checkbox"/> | <input type="checkbox"/> | Do you track readmissions and/or Emergency Department/Observation Unit visits that occur at other facilities in your tracking of readmission? |
| 1b. | <input type="checkbox"/> | <input type="checkbox"/> | As a result of readmission review, have any QI initiatives been undertaken to decrease readmission rates? |
| 1c. | <input type="checkbox"/> | <input type="checkbox"/> | Do you track discharge destinations of cardiac care patients? |
| 1d. | <input type="checkbox"/> | <input type="checkbox"/> | Do you track Average Length of Stay (ALOS) by location within the hospital (e ICU/CCU, step down unit, etc.)? |

2. At what intervals do you track readmission rates? (Check all that apply)

Inpatient Readmissions

- Do not track readmission rates
- Within 24 hours
- Within 72 hours
- Within 30 days
- Other (please specify) _____

ED/Observation Unit Visits

- Do not track readmission rates
- Within 24 hours
- Within 72 hours
- Within 30 days
- Other (please specify) _____

Other Facility Readmissions

- Do not track readmission rates
- Within 24 hours
- Within 72 hours
- Within 30 days
- Other (please specify) _____

3. If you answered yes to question 1b, please give a specific example of the outcome of any QI initiatives that were undertaken to decrease readmission rates. (Limit your response to 200 words or less.)

- Not applicable – have not undertaken any QI initiatives to decrease readmission rates

4. Please complete the following table for the most recent two year period. Indicate fiscal year or calendar year.

Table 7: Discharge Destination & Readmissions by ICD-9-CM Procedure Code

Instructions:													
1. Patients should be counted only once based on ICD-9-CM procedure codes, as defined in the instructions on Page 1. The GRAND TOTAL should match the total number of discharges reported in Table 5. 2. If data is not available, enter 'N/A.' 3. Include both Medicare and non-Medicare patients. 4. Readmissions are for cardiac problems only. Unintended readmissions are those occurring due to a complication related to the initial admission; they are not scheduled.

Section VI. Customer Service

1. Do you measure patient satisfaction? (If yes, complete column 1 in the table below)

Yes No

2. Do you measure provider satisfaction? (If yes, complete column 2 in the table below)

Yes No

If you responded no for both questions 1 and 2, skip Question 3 and go to Section VII.

3. Please respond to the customer satisfaction questions in the following table.

Table 8: Customer Satisfaction

	Column 1 Patient Satisfaction	Column 2 Provider Satisfaction
a. What method do you use to measure satisfaction? Mail survey <input type="checkbox"/> Telephone survey <input type="checkbox"/> Interview <input type="checkbox"/> Internet survey <input type="checkbox"/> Other (Please specify) <input type="checkbox"/> _____		
b. Who conducts these surveys? Hospital staff <input type="checkbox"/> Contractor (Please specify) <input type="checkbox"/> _____		
c. What percentage of your cardiac care patients/ providers is sent or administered the survey? 0%-20% <input type="checkbox"/> 21%-40% <input type="checkbox"/> 41%-60% <input type="checkbox"/> 61%-80% <input type="checkbox"/> 81%-100% <input type="checkbox"/>		
d. What is your return or completion rate? (Rate = # recipients returning survey / # recipients sent survey) 0%-20% <input type="checkbox"/> 21%-40% <input type="checkbox"/> 41%-60% <input type="checkbox"/> 61%-80% <input type="checkbox"/> 81%-100% <input type="checkbox"/>		

	Column 1 Patient Satisfaction	Column 2 Provider Satisfaction
e. When do you administer the tool?	<input type="checkbox"/> Prior to discharge <input type="checkbox"/> At discharge <input type="checkbox"/> 0-3 months post d/c <input type="checkbox"/> Other (please specify) _____	<input type="checkbox"/> Quarterly <input type="checkbox"/> Annually <input type="checkbox"/> Every 2 Years <input type="checkbox"/> Other (please specify) _____
f. How often do you report results?	Quarterly <input type="checkbox"/> Annually <input type="checkbox"/> Every 2 years <input type="checkbox"/> Other (Please specify) <input type="checkbox"/> _____	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> _____
g. With whom do you share results? (Check all that apply.)	Board of Directors <input type="checkbox"/> Physicians/Providers <input type="checkbox"/> Hospital Administration <input type="checkbox"/> Staff <input type="checkbox"/> Patients <input type="checkbox"/> Local media <input type="checkbox"/> Other (Please specify) <input type="checkbox"/> _____	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> _____
h. What type of survey instrument do you use?	Nationally published (Specify) <input type="checkbox"/> _____ Developed in house <input type="checkbox"/> Other (Please specify) <input type="checkbox"/> _____	<input type="checkbox"/> _____ <input type="checkbox"/> <input type="checkbox"/> _____
i. Do you compare your results to any external standards?	Yes (Please specify which external standards) <input type="checkbox"/> _____ No <input type="checkbox"/>	<input type="checkbox"/> _____ <input type="checkbox"/>
j. Who is included in your provider satisfaction survey?		<input type="checkbox"/> Attending physicians <input type="checkbox"/> Anesthesiologists <input type="checkbox"/> Cardiac care nurses <input type="checkbox"/> Referring physicians <input type="checkbox"/> Other (Please specify) _____

4. Please provide a specific example of how you have used patient and/or provider satisfaction results to improve services to patients and/or providers. [\(Limit your response to 200 words or less.\)](#)

Section VII. Promotion of New Knowledge

1. Please complete the following table about your physician training programs.

Table 9: Physician Training

	No	Yes	
Do you provide the following accredited physician training programs?			If no, skip to Section VIII
Cardiothoracic Surgery Residency			If yes, how many FTEs? _____
Cardiology Fellowship			If yes, how many FTEs? _____
Cardiac Anesthesiology Fellowship			If yes, how many FTEs? _____
General Surgery Residency			If yes, how many FTEs? _____
Internal Medicine Residency			If yes, how many FTEs? _____
Other (Please specify) _____			If yes, how many FTEs? _____

Section VIII. Cardiac Care Team Education and Experience

- Please indicate the number of cardiac surgeons and cardiologists in practice, not including residents or fellows.

Table 10: Number of Physicians

Cardiac Surgeons		Cardiologists	
2001	2002	2001	2002

- Please complete the following table for the most recent two year period. Indicate fiscal year or calendar year.

Table 11: Cardiac Surgeons' Qualifications and Volumes *(add more lines if necessary)*

Instructions:								
1. Include only physicians active as of the date this application is submitted. 2. Include both Medicare and non-Medicare procedures. 4. 'Total Number of Procedures at This and Other Facilities' should be an approximate number of all CABG and Valve surgeries performed at all facilities, including the applicant facility, in the year identified.

	# Staff at year start	# Staff separated* during year	Turnover rate (column 2 / column 1)	# Staff at year start	# Staff separated* during year	Turnover rate (column 2 / column 1)
Cardiac Surgeons						
Noninterventional Cardiologists						
Interventional Cardiologists						
Anesthesiologists						
Cardiac Nurses						
Perfusionists						
CRNAs						
Nurse Practitioners						
Physician Assistants						
Other (please specify) _____						

Total						

* Includes all voluntary and involuntary separations (i.e. retirements, deaths, resignations, terminations) of regular, non-contractual staff.

9. Briefly describe how “travelers” and/or contracted staff are incorporated in your turnover rate above. (Limit your response to 100 words or less.)

Section IX. Range of Services

1. Is the applicant facility a Level I or Level II trauma center?

- Level I Level II Neither

2. Please check off which of the following services are available at your hospital. (Check all that apply)

Catheterization Lab

- Non balloon devices/techniques
 - Rotational atherectomy
 - Clot extraction device
 - Directional coronary atherectomy
 - Laser
 - Other (Please specify) _____

- Filmless catheterization lab
- Intravascular Ultrasound (IVUS) guidance
- Percutaneous closure devices
- Brachytherapy
- Distal protection
- Peripheral vascular procedures performed in the catheterization lab
- Drug coated stents (Please specify type/material) _____

Radiology Services

- Advanced imaging technologies (Please specify) _____

Surgery Capability / Facilities

- Cardiac surgery capability 24 hours/day, 7 days/week for all major heart surgeries

Pharmacy Services

- Open 24 hours/day, 7 days/week
- Pharmacokinetic capability
- Computerized entry of prescriptions
- Computerized alert system

Other Services / Facilities

- Ventricular assist devices
- Electrophysiology capability (Please describe)

- Computerized laboratory order entry
- Computerized medical record system
- Other (Please specify) _____

3. Please list any cardiac related primary and/or secondary prevention services offered by your facility.
(Limit your response to 100 words or less.)

Section X. Cardiac Care Management and Organization

1. Has the hospital developed a separate organizational entity that brings cardiac care and related services together under one administrative structure?

Yes No

If yes, briefly describe how cardiac care physicians are integrated and how long this entity has existed. (Limit your response to 100 words or less.)

2. Please complete the following table for your Cardiac Program leader(s).

Table 17: Cardiac Program Leaders

Title and Name (Complete for all that apply and provide names for each)	# Relevant Procedures for Specialty	% Time Spent on Direct Clinical Care/ Clinical Management*	Years Experience in Current Position	Position To Which Program Leader Reports	Clinical Faculty Appointment (Y/N) – If yes, indicate title and affiliation
Medical Director: _____					
Anesthesiology Medical Director: _____					
Cardiovascular Surgery Medical Director: _____					
Cardiology Medical Director: _____					
Nursing Director: _____					
Business Director: _____					
Other: _____					

* Exclude teaching, research, and administrative time

3. What role do department/ program leaders have in determining the budget each year for the cardiac program as well as for ancillary departments upon whose services the program relies (e.g., radiology, physical medicine and rehabilitation services)? (Limit your response to 200 words or less.)

4. What position authorizes the finances, resources and personnel of the program? (Check all that apply)

- Program Medical Director
- Program Nursing Director
- Program Business Director
- Chief Executive Officer
- Chief Operating Officer
- Chief Financial Officer
- Other (please specify title): _____

5. Please provide your maximum and minimum nurse to patient staffing ratios for the past 12 months for the following:

<u>Maximum</u>	<u>Minimum</u>	
		Licensed nurses to CCU patients
		Licensed nurses to CSICU patients
		Licensed nurses to cardiac surgery/cardiology floor patients
		Other (please specify): _____

Section XI. Patient Services and Community Outreach

1. Please briefly describe your hospital’s cardiac patient education program. Include the types of programs, any fees that may be applicable, and any limitations on who may be eligible for these services. *(Limit your response to 200 words or less.)*

2. Indicate below the availability, fees (if applicable), and limitations/eligibility requirements for the transportation services offered by your hospital to cardiac care program patients and families.

		<u>Available</u>	<u>Fees (enter 'N/A' if not applicable)</u>	<u>Limitations/Eligibility</u>
Cab vouchers	<input type="checkbox"/>		<input style="width: 100%;" type="text"/>	
_____			<input style="width: 100%;" type="text"/>	
Mass transit vouchers	<input type="checkbox"/>		<input style="width: 100%;" type="text"/>	
_____			<input style="width: 100%;" type="text"/>	
Valet parking	<input type="checkbox"/>		<input style="width: 100%;" type="text"/>	

Shuttle / Van service	<input type="checkbox"/>			

Other <i>(please specify)</i>	<input type="checkbox"/>			

3. Indicate below the availability, fees (if applicable), and limitations/eligibility requirements for the housing services offered by your hospital to cardiac care program patients and families.

		<u>Available</u>	<u>Fees (enter 'N/A' if not applicable)</u>	<u>Limitations/Eligibility</u>
Hotel vouchers	<input type="checkbox"/>		<input style="width: 100%;" type="text"/>	
			<input style="width: 100%;" type="text"/>	
			<input style="width: 100%;" type="text"/>	

On site hotel services

In-house rooms

Hospital apartments

Other (please specify)

4. Indicate the electronic communication opportunities provided by your hospital. (Please check all that apply.)

- Hospital website
 - With links to providers
 - With webpage specific to cardiac care program

 - Public email access
 - To providers
 - To hospital
 - To cardiac care program

 - Hospital intranet
 - Routine availability of remote access by most/all physicians
 - Routine availability of remote access by most/all staff

 - Other (please specify):
-

5. Please briefly describe any other amenities offered by your hospital to cardiac care program patients and families. Include the types of programs, any fees that may be applicable, and any limitations on who may be eligible for these services. (Limit your responses to 200 words or less.)

6. Do any of the Cardiac Care program team members provide outreach services?

Yes No

If yes, please describe which team members and which professions are involved, what types of programs are offered, and where the programs are offered. [\(Limit your responses to 200 words or less.\)](#)
