OVERVIEW OF THE PUBLIC USE FILE

This section provides an overview of the Medicare Health Outcomes Survey (HOS) *Cohort V Baseline* Public Use File (C5BPUF.TXT), including the general characteristics of the data and a description of the fields contained within it. The *Medicare Health Outcomes Survey Description* section (B) in this Data User's Guide provides a general description of the HOS background and methodology, including the sampling methodology, data collection, and survey components. For a more detailed discussion of these items, please refer to the *HEDIS® 2002, Volume 6: Specifications for the Medicare Health Outcomes Survey*¹ (referred to as the *2002 HOS Manual*).

GENERAL CHARACTERISTICS OF THE DATA

The 2002 *Cohort V Baseline* Medicare HOS included a random sample of 171,504 beneficiaries, including both the aged and disabled, from 177 managed care market areas or reporting units. Of the 171,504 individuals sampled, 65.6% (112,563) completed the baseline survey and were included in the C5BPUF.TXT data file. For the purposes of this data set, a completed survey was defined as a survey with at least one question item completed and a survey disposition code equal to M10, M11, M31, T10, T11 or T31 (please refer to page D19). The C5BPUF.TXT data file is a fixed-width ASCII text file (13.5 megabytes in size). There are a total of 102 fields and 112,563 beneficiary records in the C5BPUF.TXT data file. Each row in the C5BPUF.TXT data file represents an individual's HOS survey responses, also referred to as a beneficiary record.

This Public Use File (PUF) has been modified from the original *Cohort V Baseline* data set in order to preserve the confidentiality at the beneficiary and plan levels. Many demographic and plan-level fields have been omitted from this file or have been collapsed into fewer categories [see *Limitations of the Data* section (C)]. Sensitive beneficiary identifying fields [such as a social security number, health insurance claim (HIC) number, beneficiary's name, etc.] have been removed and replaced with a unique nine digit randomly assigned number.

The 102 fields in the C5BPUF.TXT data file are organized into four different groups:

- ◆ identification and demographics
- ◆ survey question responses
- ◆ survey administration
- ◆ additional field

DESCRIPTION OF FIELDS IN THE DATA FILE

The following content provides details for interpreting the specific fields contained within the data file.

Identification and Demographics

◆ **Unique Identification Number**, Field: 1

This is a unique nine digit number that is randomly assigned for each beneficiary record. Positions 1 through 3 identify the cohort in which the respondent was first surveyed. Positions 4 through 9 contain a random number. Any beneficiary surveyed in a subsequent baseline cohort will be assigned the same blinded identification number to allow for comparisons of those beneficiaries who were measured across multiple baseline cohorts. For example, if a beneficiary was surveyed in both *Cohort I Baseline* and *Cohort II Baseline*, the beneficiary's identification number in the *Cohort II Baseline* PUF will match the identification number assigned in the *Cohort I Baseline* PUF. Before being excluded due to confidentiality issues, the HIC number was used to identify those individuals measured across multiple baseline cohorts. Limitations to identifying beneficiaries across multiple baseline cohorts utilizing the HIC number will be discussed in the *Limitations of the Data* section (C) of this Data User's Guide. The data is sorted by this unique identification number.

Example: C05000021

Source: Field created by Health Services Advisory Group during production of the C5BPUF.TXT data file

◆ **Age Group**, Field: 2

Age group of the beneficiary

Source: CMS Medicare Enrollment Database

◆ **Race**, Field: 3

Self-reported race of the beneficiary

Source: Q49 from survey

◆ **Gender**, Field: 4

Self-reported gender of the beneficiary

Source: Q47 from survey

◆ **Marital Status**, Field: 5

Self-reported marital status of the beneficiary

Source: Q50 from survey

◆ **Education Level**, Field: 6

Self-reported educational attainment of the beneficiary

Source: Q51 from survey

Survey Question Responses

- ◆ **SF-36^{®2} Questions**, Fields: 7 through 42
These fields represent the SF-36[®] survey questions, which can be found on pages 39 through 41 of the *2002 HOS Manual*. SF-36[®] survey questions include questions Q1 through Q11d in the HOS Questionnaire. Please refer to the *Medicare Health Outcomes Survey Description* section (B) in this Data User's Guide for a more detailed description of the SF-36[®].
- ◆ **Additional Physical, Mental, and General Activity Questions**, Fields: 43 through 96
These fields comprise the balance of the physical, mental, and general activity survey questions found on pages 42 through 49 of the *2002 HOS Manual*. These fields include most of the remaining questions Q12 through Q57 in the HOS Questionnaire. Selected questions contained in the survey are not available in this PUF data file due to confidentiality issues. Please refer to the *Medicare Health Outcomes Survey Description* section (B) in this Data User's Guide for a more detailed outline of these questions.

Survey Administration

- ◆ **Survey Disposition**, Field: 97
Identifies completion status and mode by which the survey was completed
Source: NCQA-certified HOS Vendor
- ◆ **Round Survey Returned**, Field: 98
Stage in which survey was returned to a vendor
Source: NCQA-certified HOS Vendor
- ◆ **Percent of Survey Completed**, Field: 99
Percentage of the survey completed by the respondent
Source: Field created by Health Services Advisory Group during the data cleaning and processing of the *Cohort V Baseline* data file
- ◆ **Cohort Identifier**, Field: 100
Cohort in which the HOS surveys contained in this data file were submitted
SPECIAL NOTE: This value for each record will equal "C05"
Source: Field created by Health Services Advisory Group during production of the C5BPUF.TXT data file
- ◆ **CMS Plan Region**, Field: 101
CMS Regional Office to which the plan belongs

Additional Field

- ◆ ***Survey Language***, Field: 102
Language in which the survey was completed
Source: NCQA-certified HOS Vendor

Further details of the contents of the data file are available in the *Field Index with Field Descriptions* section (D) of this Data User's Guide.

TECHNICAL ASSISTANCE

The Medicare HOS Information and Technical Support Telephone Line (1-888-880-0077), as well as the HOS e-mail address (hos@azqio.sdps.org), are available to provide technical assistance. Additionally, the Medicare HOS website provides general information on the project and responses to Frequently Asked Questions (<http://www.cms.hhs.gov/surveys/hos>).

MEDICARE HEALTH OUTCOMES SURVEY DESCRIPTION

This section provides a description of the HOS background and methodology, including the sampling methodology, data collection, and survey components.

BACKGROUND

The Centers for Medicare & Medicaid Services (CMS) is committed to monitoring the quality of care provided by Medicare + Choice Organizations (M+COs). To better evaluate care, CMS, in collaboration with the National Committee for Quality Assurance (NCQA), launched the first Medicare managed care health outcomes measure in the Health Plan Employer Data and Information Set (HEDIS[®]) in 1998.³ This measure was initially titled the Health of Seniors, and was renamed the Medicare Health Outcomes Survey (HOS) during the first year of implementation. This name change was intended to reflect the inclusion of Medicare recipients who are disabled and not seniors (not age 65 or older) in the sampling methodology. The HOS design is based on a randomly selected sample of individuals from each participating M+CO and measures physical and mental health over a two-year period.

The HOS measure is an assessment of a health plan's ability to maintain or improve the physical and mental health functioning of beneficiaries enrolled in Medicare M+COs over a two-year period of time. The functional status of the elderly is known to decline over such a period.⁴ The HOS results were computed using a set of case mix/risk adjustment factors, adjusting for expected differences. The differences between the baseline and the two-year follow up physical and mental health scores are presented in terms of the percentages of beneficiaries who were better, the same, or worse than expected. The resulting aggregation of these scores across beneficiaries within a plan yields the HOS plan level Performance Measurement results. These results are specific to each individual plan. The HOS results are an important part of CMS' quality improvement activities, as current law authorizes Quality Improvement Organizations (QIOs) to review the quality of care provided to Medicare beneficiaries. In addition, CMS includes the HOS results as one of the components of their performance assessment program. The goal of the HOS program is to gather valid and reliable health status data in Medicare managed care for use in quality improvement activities, public reporting, plan accountability, and improving health outcomes.

The HOS measure was developed under the guidance of a Technical Expert Panel (TEP) comprised of individuals with specific expertise in the health care industry and outcomes measurement. The TEP continues to provide input for developing the science of the HOS measure. CMS has contracted with NCQA to support the standardized administration of the HOS survey including selecting, training, and certifying independent survey vendors with whom the plans contract to administer the survey.

SAMPLING METHODOLOGY

Beginning in 1998, and continuing annually, an HOS *Baseline Cohort* has been created from a random sample of 1,000 Medicare members from each applicable Medicare contract market area. The sampling methodology is dependent upon the plan's population. For M+COs with Medicare populations of more than 1,000 members, a simple random sample of 1,000 members is selected for the baseline survey. In those M+COs with 3,000 or more members, individuals who responded to the *Cohort IV Baseline* survey were excluded from the *Cohort V Baseline* sample. For M+COs with populations of 1,000 members or less, all eligible members are included in the sample. Beneficiaries continuously enrolled for at least six months including institutionalized beneficiaries, nursing home residents, and disabled under age 65 beneficiaries were eligible; however, beneficiaries with end stage renal disease (ESRD) were excluded.

In 1998, CMS required Medicare Managed Care Organizations (MCOs) with contracts in effect on or before January 1, 1997 to participate in the HOS. Some Medicare MCOs were required to report by market areas, defined as geographic areas containing more than 5,000 members that are generally served by distinctly separate networks of service providers (referred to as "contract markets"). In 1999, CMS required all M+COs and section 1876 risk and cost health plans with contracts in place on or before January 1, 1998 to participate in the HOS. In addition, selected Program of All-inclusive Care for the Elderly (PACE) plans, Evercare plans, and demonstration risk plans participated in the second year administration. A Spanish language version of the survey was also incorporated into the survey protocol.

In 2000, CMS required all M+COs, continuing cost contractors, PACE plans, Social HMOs, Medicare Choices Demonstration plans, and Department of Defense (DOD) Subvention Demonstration plans with contracts in place on or before January 1, 1999 to participate in the *Cohort III Baseline* survey. All plans with contracts in place on or before January 1, 1997 that participated in the *Cohort I Baseline* survey in 1998 were required to participate in the *Cohort I Follow Up* survey in 2000. In 2001, CMS required all M+COs, continuing cost contractors, PACE plans, Social HMOs, and Medicare Choices Demonstration plans with contracts in place on or before January 1, 2000 to participate in the *Cohort IV Baseline* survey. All plans with contracts in place on or before January 1, 1998 that participated in the *Cohort II Baseline* survey in 1999 were required to participate in the *Cohort II Follow Up* survey in 2001.

In 2002, CMS required all M+COs, continuing cost contractors, PACE plans, Social HMOs, and Medicare Choices Demonstration plans with contracts in place on or before January 1, 2001 to participate in the *Cohort V Baseline* survey. In addition, all plans with contracts in place on or before January 1, 1999 that participated in the *Cohort III Baseline* survey in 2000 were required to participate in the *Cohort III Follow Up* survey in 2002.

DATA COLLECTION

M+COs must contract with an NCQA-certified HOS vendor to administer the survey. For Round 5 data collection, vendors followed the protocol contained in the *2002 HOS Manual*. The standard HEDIS[®] protocol for administering the HOS employs a combination of mail and telephone survey administration. The mail component of the survey uses a standardized questionnaire, survey letters, and prenotification and reminder/thank you postcards. Vendors review each returned mail questionnaire for legibility and completeness. If a beneficiary's responses are ambiguous, then a coding specialist employs standardized decision rules. Questionnaires can be entered into a computer manually or optically scanned into a computer readable file. For manually entered data, two separate data entry specialists must key enter responses from each questionnaire.

In those instances when beneficiaries fail to respond after the second mail survey, vendors attempt telephone follow up (with a maximum of six attempts). Vendors also perform telephone follow up for members who return an incomplete mail survey in order to obtain responses to missing questions. Vendors use a standardized version of a Computer Assisted Telephone Interviewing (CATI) script to collect telephone interview data for the survey. To ensure the standardization of the data collection process, vendors are prohibited from augmenting or adjusting the HOS protocol or instrument.

Periodically during the survey administration and again when data collection is completed, vendors run an edit program against each record in the data file to identify invalid data elements. At the conclusion of the data collection period, vendors perform preliminary data cleaning and editing and follow up with survey respondents, as necessary. For a more detailed discussion on data sampling, collection, and submission, please refer to the *2002 HOS Manual*.

SURVEY COMPONENTS

The HOS instrument consists of the SF-36[®] Health Survey and additional questions, including those used for case mix/risk adjustment purposes.

SF-36[®] Health Survey

The SF-36[®] is a multi-purpose, short-form health survey with 36 questions. It yields an eight scale profile of scores, as well as physical and mental health summary scores. It is a generic measure, as opposed to one that targets a specific age, disease, or treatment group. As documented in more than 2,500 publications, the SF-36[®] has proven useful in both general and specific populations, comparing the relative burden of diseases, differentiating the health benefits produced by a wide range of different treatments, and screening individual patients. The most complete information about the history and development of the SF-36[®], its psychometric

evaluation, studies of reliability and validity, and normative data are available in two user's manuals.^{5, 6}

SF-36[®] survey questions are comprised of the following:

- General health question (Q1)
- Health transition question (Q2)
- Vigorous activities question (Q3a)
- Moderate activities question (Q3b)
- Lifting or carrying groceries question (Q3c)
- Climbing several flights of stairs question (Q3d)
- Climbing one flight of stairs question (Q3e)
- Bending, kneeling, or stooping question (Q3f)
- Walking more than a mile question (Q3g)
- Walking several blocks question (Q3h)
- Walking one block question (Q3i)
- Bathing or dressing question (Q3j)
- Physical health limiting time spent on activities question (Q4a)
- Physical health limiting amount accomplished question (Q4b)
- Physical health limiting the kind of activities question (Q4c)
- Physical health causing difficulty performing activities question (Q4d)
- Emotional problems limiting time spent on activities question (Q5a)
- Emotional problems limiting amount accomplished question (Q5b)
- Emotional problems limiting carefulness (Q5c)
- Extent health interfering with social activities question (Q6)
- Bodily pain question (Q7)
- Pain interfering with work question (Q8)
- Full of pep question (Q9a)
- Nervous question (Q9b)
- Down in the dumps question (Q9c)
- Calm and peaceful question (Q9d)
- Lots of energy question (Q9e)
- Downhearted and blue question (Q9f)
- Feeling worn out question (Q9g)
- Happy question (Q9h)
- Feeling tired question (Q9i)
- Amount of time health interfering with social activities question (Q10)
- Sick easier question (Q11a)
- As healthy question (Q11b)
- Future health question (Q11c)
- Excellent health question (Q11d)

⁵ Ware JE, Snow KK, Kosinski M, Gandek B. *SF-36[®] Health Survey Manual and Interpretation Guide*. Boston, MA: The Health Institute, 1993.

⁶ Ware JE, Kosinski M. *SF-36[®] Physical and Mental Health Summary Scales: A Manual for Users of Version 1, Second Edition*. Lincoln, RI: QualityMetric, Incorporated, 2001.

Additional Physical, Mental, and General Activity Questions

Along with the SF-36[®], the HOS includes additional items that provide essential information for adjusting observed outcomes to account for risk that may be outside of a plan's control. Such fields include:

- ◆ *Impairment of Activities of Daily Living:*
 - bathing (Q12a)
 - dressing (Q12b)
 - eating (Q12c)
 - getting in or out of chairs (Q12d)
 - walking (Q12e)
 - using the toilet (Q12f)
- ◆ *Chest pain/pressure during exercise (Q13a)*
- ◆ *Chest pain/pressure when resting (Q13b)*
- ◆ *Shortness of breath when lying flat (Q14a)*
- ◆ *Shortness of breath when sitting/resting (Q14b)*
- ◆ *Shortness of breath when walking less than one block (Q14c)*
- ◆ *Shortness of breath when climbing one flight of stairs (Q14d)*
- ◆ *Numbness or loss of feeling in feet (Q15a)*
- ◆ *Ankles or legs that swell during the day (Q15b)*
- ◆ *Tingling or burning sensation in feet, especially at night (Q15c)*
- ◆ *Decreased ability to feel hot or cold with feet (Q15d)*
- ◆ *Sores or wounds on feet that do not heal (Q15e)*
- ◆ *Paralysis or weakness (Q16a)*
- ◆ *Lost ability to talk (Q16b)*
- ◆ *Ability to read newspaper print (Q17)*
- ◆ *Ability to hear (Q18)*
- ◆ *Acid indigestion or heartburn (Q19)*
- ◆ *Difficulty controlling urination (Q20)*
- ◆ *Chronic Medical Conditions:*
 - hypertension or high blood pressure (Q21)
 - angina pectoris or coronary artery disease (Q22)
 - congestive heart failure (Q23)
 - myocardial infarction or heart attack (Q24)
 - other heart conditions (Q25)
 - stroke (Q26)
 - emphysema, asthma, or Chronic Obstructive Pulmonary Disease (Q27)
 - Crohn's disease, ulcerative colitis, or inflammatory bowel disease (Q28)
 - arthritis of the hip or knee (Q29)
 - arthritis of the hand or wrist (Q30)
 - sciatica (Q31)
 - diabetes, high blood sugar, or sugar in the urine (Q32)
 - any cancer (other than skin cancer) (Q33)

- ◆ *Measure of arthritis pain (Q34)*
- ◆ *Cancer Treatment (Q35):*
 - colon or rectal cancer
 - lung cancer
 - breast cancer
 - prostate cancer
- ◆ *Interference of low back pain with usual daily activities (Q36)*
- ◆ *Experiencing pain, numbness, or tingling in legs (Q37)*
- ◆ *Depression screening questions (Q38 through Q40)*
- ◆ *Health compared to one year ago (Q41)*
- ◆ *Smoking questions (Q42 through Q45)*
- ◆ *Demographics*
 - Year of birth (Q46 – not available in C5BPUF.TXT)
 - Gender (Q47)
 - Hispanic or Spanish family background (Q48 – not available in C5BPUF.TXT)
 - Race (Q49)
 - Marital status (Q50)
 - Education (Q51)
 - Residential status questions (Q52 through Q54; Q52 is not available in C5BPUF.TXT)
 - Person completing the survey (Q55)
 - Name of person completing the survey (Q56 – not available in C5BPUF.TXT)
 - Income (Q57 – not available in C5BPUF.TXT)

SPECIAL NOTES

- ◆ Selected questions that appear in the *2002 HOS Manual* are not available in the C5BPUF.TXT data file. These questions were excluded due to confidentiality issues [see *Limitations of the Data* section (C)].
- ◆ The HOS Questionnaire contains multiple skip patterns. Caution should be exercised when examining selected questions that involve skip pattern responses. Please refer to the *Field Index with Field Descriptions* section (D) for additional information.
- ◆ When the sampled beneficiary was unable to complete the survey, the HOS protocol allows for the utilization of a proxy respondent. Surveys completed either by the respondent themselves or by proxy respondents are included in this data file.
- ◆ Minor modifications to the HOS Questionnaire occurred between the administration of the *Cohort I Baseline* and *Cohort II Baseline* surveys. One question was removed from the instrument [Visiting a doctor question (Q45 in the *Cohort I Baseline* survey)]. The reference period of the smoking cessation questions was reduced from 12 to 6 months [Quit smoking question (Q44), and Smoking advice question (Q45 in the *Cohort II Baseline* survey)]. Please refer to the *Field Index with Field Descriptions* section (D) for additional information. Caution should be exercised when examining the data across multiple cohorts.

- ◆ The original *Cohort V Baseline* sample included beneficiaries enrolled in PACE plans. Since the PACE plans differ significantly from the M+CO plans, their data were analyzed and reported separately. Please note that the C5BPUF.TXT data file does not include beneficiaries enrolled in PACE plans.

LIMITATIONS OF THE DATA

This section illustrates the limitations of the data, including issues relative to the collapsing of selected field categories and the identification of Medicare beneficiaries.

COLLAPSING THE CATEGORIES OF SELECTED FIELDS

To ensure confidentiality of beneficiaries and plans, many demographic and plan-related fields were omitted from this file or collapsed into fewer categories.

Collapsed categories include:

Field	Scale in C5BPUF.TXT ⁷	Scale in HOS Questionnaire ⁸
Race of Beneficiary	1 = White 2 = Black or African American 3 = Other	1 = American Indian or Alaskan Native 2 = Asian or Pacific Islander 3 = Black or African American 4 = White 5 = Another race or multiracial
Marital Status of Beneficiary	1 = Married 2 = Non-Married	1 = Married 2 = Divorced 3 = Separated 4 = Widowed 5 = Never married
Education Level of Beneficiary	1 = Less than a high school education or GED 2 = High school education or GED 3 = Greater than a high school education or GED	1 = 8 th grade or less 2 = Some high school, but did not graduate 3 = High school graduate or GED 4 = Some college or 2 year degree 5 = 4 year college graduate 6 = More than a 4 year college degree

NOTE: With the exception of gender, age group, and the collapsed fields above, all other demographic and plan-related fields appearing in the *2002 HOS Manual* have been excluded for confidentiality reasons.

CHANGES IN IDENTIFICATION OF SURVEYED BENEFICIARIES

The HOS uniquely identifies beneficiaries by using the beneficiary's health insurance claim (HIC) number. However, a beneficiary's HIC number can change through special circumstances. Changes in a beneficiary's HIC number between baseline and follow up sampling are accounted for in the sampling protocol. However, changes in a beneficiary's HIC number between baseline cohorts are not accommodated in the sampling protocol.

⁷ Scale as it is represented in C5BPUF.TXT

⁸ Scale as it is represented in the *2002 HOS Manual*

FIELD INDEX WITH FIELD DESCRIPTIONS

This section provides detailed information regarding the structure of the C5BPUF.TXT data file, as well as the fields included in it. The tables below include the order, position, valid values, and any additional information for each field in the data file. Fields are presented in the same order as they exist in the data set.

The C5BPUF.TXT data file:

- ◆ is a fixed-width ASCII text file of 13.5 megabytes
- ◆ consists of *Cohort V Baseline* HOS surveys completed in 2002
- ◆ contains a total of 102 fields and 112,563 beneficiary records
- ◆ contains a blank space for all missing values
- ◆ contains numeric values with the exception of field numbers 1, 97, 98, and 100
- ◆ is sorted by the unique identification number

IDENTIFICATION AND DEMOGRAPHICS

Field #	Field Description	Field Position	Additional Information and Valid Values
1	Unique Identification Number	1 – 9	A unique nine digit randomly assigned number for each beneficiary (SPECIAL NOTE : this field contains a character string): Example: C05000021
2	Age Group of Beneficiary	10	Age obtained from the CMS Medicare Enrollment Database. Age is collapsed into three age groups: 1 = Less than 65 2 = 65 to 74 3 = Greater than 74
3	Race of Beneficiary	11	Beneficiary's response to Q49 from the <i>Cohort V Baseline</i> survey (SPECIAL NOTE : category collapsed to ensure confidentiality of beneficiaries): <i>How would you describe your race?</i> 1 = White 2 = Black or African American 3 = Other
4	Gender of Beneficiary	12	Beneficiary's response to Q47 from the <i>Cohort V Baseline</i> survey: <i>Are you male or female?</i> 1 = Male 2 = Female
5	Marital Status of Beneficiary	13	Beneficiary's response to Q50 from the <i>Cohort V Baseline</i> survey (SPECIAL NOTE : category collapsed to ensure confidentiality of beneficiaries): <i>What is your current marital status?</i> 1 = Married 2 = Non-Married
6	Education Level of Beneficiary	14	Beneficiary's response to Q51 from the <i>Cohort V Baseline</i> survey (SPECIAL NOTE : category collapsed to ensure confidentiality of beneficiaries): <i>What is the highest grade or level of school that you have completed?</i> 1 = Less than a high school education or GED 2 = High school education or GED 3 = Greater than a high school education or GED

SURVEY QUESTION RESPONSES

Field #	Field Description	Field Position	Additional Information and Valid Values
7	General Health Question (Q1)	15	Beneficiary's response to Q1 from the <i>Cohort V Baseline</i> survey: <i>In general, would you say your health is:</i> 1 = Excellent 2 = Very Good 3 = Good 4 = Fair 5 = Poor
8	Health Transition Question (Q2)	16	Beneficiary's response to Q2 from the <i>Cohort V Baseline</i> survey: <i>Compared to one year ago, how would you rate your health in general now?</i> 1 = Much better now than one year ago 2 = Somewhat better now than one year ago 3 = About the same as one year ago 4 = Somewhat worse now than one year ago 5 = Much worse now than one year ago
9	Vigorous Activities Question (Q3a)	17	Beneficiary's response to Q3a from the <i>Cohort V Baseline</i> survey: <i>Does your health limit you in these activities? If so, how much?</i> <u>Vigorous activities</u> 1 = Yes, limited a lot 2 = Yes, limited a little 3 = No, not limited at all
10	Moderate Activities Question (Q3b)	18	Beneficiary's response to Q3b from the <i>Cohort V Baseline</i> survey: <i>Does your health limit you in these activities? If so, how much?</i> <u>Moderate activities</u> 1 = Yes, limited a lot 2 = Yes, limited a little 3 = No, not limited at all
11	Lifting or Carrying Groceries Question (Q3c)	19	Beneficiary's response to Q3c from the <i>Cohort V Baseline</i> survey: <i>Does your health limit you in these activities? If so, how much?</i> <u>Lifting or Carrying Groceries</u> 1 = Yes, limited a lot 2 = Yes, limited a little 3 = No, not limited at all
12	Climbing Several Flights of Stairs Question (Q3d)	20	Beneficiary's response to Q3d from the <i>Cohort V Baseline</i> survey: <i>Does your health limit you in these activities? If so, how much?</i> <u>Climbing several flights of stairs</u> 1 = Yes, limited a lot 2 = Yes, limited a little 3 = No, not limited at all

SURVEY QUESTION RESPONSES (CONT.)

Field #	Field Description	Field Position	Additional Information and Valid Values
13	Climbing One Flight of Stairs Question (Q3e)	21	Beneficiary's response to Q3e from the <i>Cohort V Baseline</i> survey: <i>Does your health limit you in these activities?</i> <i>If so, how much?</i> <u>Climbing one flight of stairs</u> 1 = Yes, limited a lot 2 = Yes, limited a little 3 = No, not limited at all
14	Bending, Kneeling, or Stooping Question (Q3f)	22	Beneficiary's response to Q3f from the <i>Cohort V Baseline</i> survey: <i>Does your health limit you in these activities?</i> <i>If so, how much?</i> <u>Bending, kneeling, or stooping</u> 1 = Yes, limited a lot 2 = Yes, limited a little 3 = No, not limited at all
15	Walking More than a Mile Question (Q3g)	23	Beneficiary's response to Q3g from the <i>Cohort V Baseline</i> survey: <i>Does your health limit you in these activities?</i> <i>If so, how much?</i> <u>Walking more than a mile</u> 1 = Yes, limited a lot 2 = Yes, limited a little 3 = No, not limited at all
16	Walking Several Blocks Question (Q3h)	24	Beneficiary's response to Q3h from the <i>Cohort V Baseline</i> survey: <i>Does your health limit you in these activities?</i> <i>If so, how much?</i> <u>Walking several blocks</u> 1 = Yes, limited a lot 2 = Yes, limited a little 3 = No, not limited at all
17	Walking One Block Question (Q3i)	25	Beneficiary's response to Q3i from the <i>Cohort V Baseline</i> survey: <i>Does your health limit you in these activities?</i> <i>If so, how much?</i> <u>Walking one block</u> 1 = Yes, limited a lot 2 = Yes, limited a little 3 = No, not limited at all
18	Bathing or Dressing Question (Q3j)	26	Beneficiary's response to Q3j from the <i>Cohort V Baseline</i> survey: <i>Does your health limit you in these activities?</i> <i>If so, how much?</i> <u>Bathing or dressing yourself</u> 1 = Yes, limited a lot 2 = Yes, limited a little 3 = No, not limited at all

SURVEY QUESTION RESPONSES (CONT.)

Field #	Field Description	Field Position	Additional Information and Valid Values
19	Physical Health Limiting Time Spent on Activities Question (Q4a)	27	Beneficiary's response to Q4a from the <i>Cohort V Baseline</i> survey: <i>During the past 4 weeks, have you had any of the following problems with your work or other regular daily activities as a result of your physical health?</i> <u>Cut down on the amount of time you spent on work or other activities</u> 1 = Yes 2 = No
20	Physical Health Limiting Amount Accomplished Question (Q4b)	28	Beneficiary's response to Q4b from the <i>Cohort V Baseline</i> survey: <i>During the past 4 weeks, have you had any of the following problems with your work or other regular daily activities as a result of your physical health?</i> <u>Accomplished less than you would like</u> 1 = Yes 2 = No
21	Physical Health Limiting the Kind of Activities Question (Q4c)	29	Beneficiary's response to Q4c from the <i>Cohort V Baseline</i> survey: <i>During the past 4 weeks, have you had any of the following problems with your work or other regular daily activities as a result of your physical health?</i> <u>Were limited in the kind of work or other activities</u> 1 = Yes 2 = No
22	Physical Health Causing Difficulty Performing Activities Question (Q4d)	30	Beneficiary's response to Q4d from the <i>Cohort V Baseline</i> survey: <i>During the past 4 weeks, have you had any of the following problems with your work or other regular daily activities as a result of your physical health?</i> <u>Had difficulty performing the work or other activities</u> 1 = Yes 2 = No
23	Emotional Problems Limiting Time Spent on Activities Question (Q5a)	31	Beneficiary's response to Q5a from the <i>Cohort V Baseline</i> survey: <i>During the past 4 weeks, have you had any of the following problems with your work or other regular daily activities as a result of any emotional problems?</i> <u>Cut down on the amount of time you spent on work or other activities</u> 1 = Yes 2 = No
