CHANGE REQUEST 4046

Transmittal 674 dated September 16, 2005, is rescinded and replaced by Transmittal 692 dated September 30, 2005. The only change is to the Recurring Update Notification, page 3, second line, to show that the single per diem is added to the first day of the stay. All other information remains the same.

SUBJECT: Fiscal Year (FY) 2006 Inpatient Prospective Payment System (IPPS) and Long Term Care Hospital (LTCH PPS) Changes

I. SUMMARY OF CHANGES: This change request announces changes both the IPPS and LTCH PPS policies based on the FY 2006 IPPS Final Rule.

NEW/REVISED MATERIAL - EFFECTIVE DATE*: October 1, 2005 IMPLEMENTATION DATE: October 3, 2005

Disclaimer for manual changes only: The revision date and transmittal number apply to the red italicized material only. Any other material was previously published and remains unchanged. However, if this revision contains a table of contents, you will receive the new/revised information only, and not the entire table of contents.

SUBJECT: Fiscal Year (FY) 2006 Inpatient Prospective Payment System (IPPS) and Long Term Care Hospital (LTCH) PPS Changes

I. GENERAL INFORMATION

A. Background: This change request (CR) outlines changes for IPPS hospitals for FY 2006. The changes for FY 2006 were published in the **Federal Register** on August 12, 2005. All items covered in this instruction are effective for hospital discharges occurring on or after October 1, 2005, unless otherwise noted.

This CR also addresses new GROUPER and diagnosis-related group (DRG) changes that are effective October 1, 2005, for hospitals paid under the IPPS, as well as under LTCH PPS. LTCH PPS rate changes occurred on July 1, 2005. Please refer to Transmittal 578, CR 3884, published on June 10, 2005, for LTCH policy changes.

B. Policy:

ICD-9-CM Changes

ICD-9-CM coding changes are effective on or after October 1, 2005. The new ICD-9-CM codes are listed, along with their DRG classifications in Tables 6a and 6b of the August 12, 2005, **Federal Register**. The ICD-9-CM codes that have been replaced by expanded codes or other codes, or have been deleted are included in Tables 6c and 6d. The revised code titles are in Tables 6e and 6f.

GROUPER 23.0 assigns each case into a DRG on the basis of the diagnosis and procedure codes and demographic information (that is age, sex, and discharge status) and is effective with discharges occurring on or after October 1, 2005. The Medicare Code Editor (MCE) 22.0 uses the new ICD-9-CM codes to validate coding for discharges on or after October 1, 2005.

Furnished Software Changes

The following software programs were issued for FY 2006:

A. IPPS PRICER 06.0 for discharges occurring on or after October 1, 2005. This processes bills with discharge dates on or after October 1, 2001. These rates were published in the August 12, 2005, **Federal Register**.

The revised hospital wage indices and geographic adjustment factors are contained in Tables 4a (urban areas), 4b (rural areas) and 4c (redesignated hospitals) of the August 12, 2005, **Federal Register**.

2. Postacute Care Transfer Policy

On October 1, 1998, CMS established a postacute care transfer policy which paid as transfers all cases which assigned to one of 10 DRGs if the patient was discharged to a psychiatric hospital or unit, an inpatient rehabilitation hospital or unit, a long term care hospital, a children's hospital, a cancer hospital, a skilled nursing facility, or a home health agency. As of October 1, 2004, that list was expanded to 29

DRGs. Effective for discharges on or after October 1, 2005, the list is expanded again. Please see **Attachment A** for all postacute care transfer DRGs.

13 of these DRGs are eligible for the special payment methodology wherein the payment is equal to 50 percent of the full DRG payment plus the single per diem (rather than double the per diem) for the first day of the stay plus 50 percent of the regular per diem for the remainder of the stay, up to the full amount of the DRG payment. The 13 special payment DRGs are: 7, 8, 210, 211, 233, 234, 471, 497, 498, 544, 545, 549, and 550.

3. New Technology Add-On Payment

Effective for discharges on or after October 1, 2005, there are two "new" new technology add-on payments, Restore Rechargeable Implantable Neurostimulator and GORE TAG, in addition to Kinetra®, which was effective October 1, 2004. OP-1, InFUSETM, and CRT-D are no longer included. Under 42 CRF 412.88 of the regulations, an add-on payment is made for discharges involving approved new technologies, if the total covered costs of the discharge exceed the DRG payment for the case (including adjustments for indirect medical education, disproportionate share, transfers, etc., but excluding outlier payments.) Pricer will calculate the total covered costs for this purpose by applying the operating cost-to-charge ratio (that is used for inpatient outlier purposes) to the total covered costs of the discharge. Payment for the eligible cases will be equal to:

- -- The DRG payment, plus
- -- The lesser of
- 50 percent of the costs of the new medical service or technology; or
- 50 percent of the amount by which the total covered costs (as determined above) of the case exceed the DRG payment; plus
- --Any applicable outlier payments if the costs of the case exceed the DRG, plus adjustments for IME and DSH, and any approved new technology payment for the case plus the fixed loss outlier threshold. The costs of the new technology are included in the determination of whether a case qualifies for outliers.

In order to pay the add-on technology payment for the Restore Rechargeable Implantable Neurostimulator, Pricer will look for the presence of ICD-9-CM procedure code, 86.98. The maximum add-on payment for the neurostimulator is \$9,320.00.

In order to pay the add-on technology payment for GORE TAG, Pricer will look for the presence of ICD-9-CM procedure code 39.73. The maximum add-on payment for GORE TAG is \$10,599.00.

In order to pay the add-on technology payment for Kinetra®, Pricer will look for the presence of ICD-9-CM procedure codes 02.93 AND 86.95. The maximum add-on payment is \$8,285.00.

It is possible to have multiple new technologies on the same claim. Should multiple new technologies be present, Pricer will calculate each separately and then total the new technology payments. The total is in the field labeled "PPS-New-Tech-Payment-Add-On" returned from Pricer.

- **B. GROUPER 23.0** for discharges occurring on or after October 1, 2005. PRICER calls the appropriate GROUPER based on discharge date. Medicare contractors should have received the GROUPER documentation on or about August 1, 2005.
- C. MCE 22.0 for discharges occurring on or after October 1, 2005. The MCE selects the proper internal tables based on discharge date. Medicare contractors should have received the MCE documentation on or about August 1, 2005.

D. Provider Specific File (PSF)

PSF required fields for all provider types which require a PSF can be found in the Medicare Claims Processing Manual, Pub. 100-04, Chapter 3, Section 20.2.3.1 and Addendum.

LTCHs are subject to the Core Based Statistical Area (CBSA) requirements effective for discharges on or after July 1, 2005.

Update the provider IPPS (PROV) file for each hospital as needed, and update the following fields for IPPS hospitals effective October 1, 2005 or effective with the cost reporting period that begins on or after October 1, 2005, or upon receipt of an as-filed (tentatively) settled cost report.

- Residents/beds ratio;
- Hospital beds;
- Operating cost-to-charge ratio;
- Fiscal year beginning date:
- Pass through amounts (for non-PPS and new hospitals);
- SSI ratio
- Medicaid ratio;
- Update the Special Payment Indicator (if applicable);
- If a hospital has been reclassified for FY 2006, update the wage index CBSA;
- Old capital hold-harmless rate;
- New capital hold-harmless rate;
- Capital cost-to-charge ratio;
- New hospital indicator: Overlay the "Y" with a blank if the period is more than two years after the provider accepted its first patient;
- Capital indirect medical education ratio; and
- Capital exception payment rate (as applicable). Effective date (this field is required at a minimum every October to maintain the functionality of the PSFs maintained by CMS.): Temporary Relief Indicator for "low volume" hospital (see 2 below)
- Enter "1" in the Hospital Quality Indicator field if applicable

Tables 8a and 8b of section VI of the addendum to the PPS final rule contain the FY 2006 Statewide average operating and capital cost-to-charge ratios, respectively, for urban and rural hospitals for calculation of cost outlier payments when the FI is unable to compute a reasonable hospital-specific costto-charge ratio (CCR). The operating CCR threshold is 1.254 and the capital threshold is 0.169.

CBSA Designations

Attachment B shows the IPPS providers that will be receiving a "special" wage index for FY 2006 (i.e., are "hold-harmless", are reclassified under section 508 of the MMA, receive a "special exception" under section 508 of the MMA, or receive an out-commuting adjustment under section 505 of the MMA). There are no longer any blended MSA/CBSA wage indexes effective October 1, 2006, (all wage indexes are based on CBSAs).

Note that for any provider with a Special Wage Index from FY 2005, FIs shall remove that special wage index, unless they receive a new special wage index as listed in Attachment B.

2. Low Volume Hospitals

FIs shall enter a "Y" in position 74 (Temporary Relief Indicator) if the hospital is considered "low volume".

Hospitals considered low volume shall receive a 25% bonus to the operating final payment. To be considered "low volume" the hospital must have fewer than 200 discharges and be located at least 25 road miles from another hospital. The discharges are determined from the latest cost report. Hospitals shall notify FIs if they believe they are a low volume hospital.

The Low Volume hospital status should be re-determined at the start of the federal fiscal year. The most recent filing of a provider cost report can be used to make the determination. If the hospital is no longer low volume, the 'Y' indicator should be removed. If the hospital does meet the low volume criteria, a 'Y' should be inserted into the low volume indicator field.

3. Hospital Quality Initiative

FIs shall enter a "1" in file position 139 (Hospital Quality Indicator) for each hospital that meets the criteria for higher payments per MMA Quality standards. Leave blank if they don't meet the criteria.

The hospitals that will receive the quality initiative bonus are listed at the following website: www.qnetexchange.org. Please select 'HDC', then 'List of Providers' under the heading 'Reporting Hospital Quality Data for Annual Payment Update' or 'What's New'. This website is expected to be updated on or about September 1, 2005.

Attachment D includes the list of providers that did not meet the criteria for FY 06. Should a provider later be determined to have met the criteria after publication of this list, they will be added to the Web site, and FIs must update the provider file as needed.

For new hospitals, FIs shall provide information to the Quality Improvement Organization (QIO) as soon as possible so that the QIO can enter the provider information into the Program Resource System and follow through with ensuring provider participation with the requirements for quality data reporting. This allows the QIOs the opportunity to contact new facilities earlier in the fiscal year to inform them of the Hospital Quality Initiative.

FIs must provide this information monthly to the QIO in the State in which the hospital has opened. It should include the following:

- State Code
- Provider Name
- Provider ID number
- Medicare Accept Date
- Contact Name (if available)
- Telephone Number

E. Other Changes

Disproportionate Share (DSH) Adjustment for Urban to Rural Providers

42 CFR 412.102 provides for a transition to a rural payment amount from an urban payment amount under the operating PPS over two years. There are a few hospitals with a DSH adjustment near or greater than 0.12 (the cap on the operating DSH adjustment for certain groups of providers) that were considered urban under the former Metropolitan Statistical Areas (MSA) definitions (effective during FY 2004), but are now considered rural under the CBSA definition (effective beginning in FY 2005). These providers shall receive an adjustment to their operating DSH payment over the two years (FY 2005 & FY 2006). This adjustment has been coded into the Pricer in an attempt to most closely approximate the DSH payment they will receive upon cost report settlement. The adjustment gives these hospitals 1/3rd of the difference between the urban and rural operating DSH for FY 2006 (and 2/3rds of the difference between the urban and rural operating DSH for FY 2005).

If an FI determines that a hospital should be added to or removed from this list, they should email Stuart.Barranco@cms.hhs.gov to have the Pricer updated prior to the next release. Based on the best available data, we have identified the following providers: 180049, 190044, 190144, 190191, 330047, 340085, 370016, 370149 and 420043 (**NOTE**: Provider 440081 was included for FY 2005, but has been removed from the list).

DSH for Indian Health Service (IHS) Facilities

Urban hospitals with 100 or more beds are not subject to a maximum payment adjustment factor of the DSH adjustment. There are no special provisions that limit the DSH adjustment factor for urban IHS facilities, as recognized by CBSA code 98 or 99, with more than 100 beds. For urban IHS facilities with more than 100 beds, FIs are instructed to set the CBSA field to the actual location of the facility. The PRICER will then identify the provider as urban for DSH purposes, which will ensure that the DSH adjustment is not capped at 12%. FIs should set the Special Payment Indicator to 1 and code the Lower 48 IHS wage index of 1.4448 or the Alaskan IHS wage index of 1.9343 into the Special Wage Index field as appropriate. We suggest that the FI run a test claim to ensure this works correctly.

Capital PPS Payment for Providers Redesignated under Section 1886(d)(8)(B) of the Act

42 CFR 412.64(b)(II)(D)(3) implements section 1886(d)(8)(B)of the Act, which redesignates certain rural counties (commonly referred to as "Lugar counties") adjacent to one or more urban areas as urban for the purposes of payment under the IPPS. Accordingly hospitals located in these "Lugar counties" (commonly referred to as "Lugar hospitals") are deemed to be located in an urban area and receive the Federal payment amount for the urban area to which they are redesignated. Currently, there are 98 qualifying "Lugar counties" (August 11, 2004; 69 FR 49056 - 49059), effective for discharges occurring on or after

October 1, 2004. Under the capital PPS, the standard Federal rate is adjusted to reflect the higher costs incurred by hospitals located in large urban areas (large urban add-on at §412.316), as well as for hospitals in urban areas with at least 100 beds serving low-income patients (capital DSH adjustment at §412.320). In the August 11, 2004, Hospital Inpatient PPS final rule (69 FR 49250), effective for discharges occurring on or after October 1, 2004, §412.316 and §412.320 specify that capital PPS large urban add-on payments and capital PPS DSH payments, respectively, are based on a hospital's geographic classification specified in §412.64. Therefore, hospitals located in one of the 98 qualifying "Lugar counties" are considered urban for payment purposes under the capital PPS and are eligible for the capital PPS largeurban add-on and capital PPS DSH payments, if applicable. To ensure these "Lugar hospitals" are paid correctly under the capital PPS, FIs must enter the urban CBSA (for the urban area shown in chart 6 of the FY 2005 IPPS final rule (69 FR 49057 – 49059)) in the standardized amount CBSA field on the PSF. (Note, as these hospitals may request geographic reclassification for wage index purposes under section 1886(d)(10) of the Act, the urban CBSA in the standardized amount CBSA field may not necessarily be the same as the urban CBSA in the wage index CBSA field on the PSF.) However, if a "Lugar hospital" declines its redesignation as urban in order to retain its rural status, FIs must enter the rural CBSA (2-digit State code) in the standardized amount CBSA field on the PSF rather than the urban CBSA from the chart below to ensure correct payment under the capital PPS.

Multicampus Hospitals

Payment issues

Under our current policy, a multicampus hospital with campuses located in the same labor market area receives a single wage index. However, if the campuses are located in more than one labor market area, payment for each discharge is determined using the wage index value for the CBSA (or metropolitan division, where applicable) in which the campus of the hospital is located. When the satellite campus is located in a different labor market area, the fiscal intermediary should assign a unique identifier (usually a 2 digit suffix), which is added after the provider's Online Survey Certification and Reporting (OSCAR) number. This provider-specific "suffix" will ensure the campus-specific payment is based on the wage index for the labor market area where the campus is geographically located.

Reclassification

For FY 2006, FY 2007, or FY 2008, for a campus of a multicampus hospital that wishes to seek reclassification to a geographic wage area where another campus(es) is located, CMS will allow the campus of a multicampus hospital to use the average hourly wage data submitted on the cost report for the entire multicampus hospital as its wage data under 412.230(d)(2). The deadline for multicampus hospitals to reclass is the same as all other hospitals; that is, they must submit their application to the Medicare Geographical Classification Review Board (MGCRB) by September 1st of each year.

Wage Index Corrections

As stated in FY 2006 Final Rule (70 FR 47384-47387) technical errors should be corrected retroactive to the beginning of the fiscal year FY 2005 in cases where the wage index of an area has been miscalculated because of the improper assignment of a particular hospital to a labor market area or geographic reclassification if the following circumstances are present.

For FY 2006 and subsequent years classification/reclassification errors made during the proposed rule:

- (1) CMS made a technical error in assigning the hospital to a geographic labor market area;
- (2) The hospital notifies CMS of the technical error using the formal comment process and during the comment period on the proposed rule;
- (3) The error was not corrected in the final rule; and
- (4) The hospital again notifies CMS of the geographic assignment error, via written correspondence or email following the publication of the final rule, and CMS agrees prior to October 1 that an error was made.

For hospitals that meet the above criteria, the hospital or its representatives must provide documentation to CMS and the fiscal intermediary that criteria (1)-(4) have been met.

For FY 2006 and subsequent years classification/reclassification errors made for the first time during the final rule:

- (1) CMS made a technical error in the final rule in assigning the hospital to a geographic labor market area; and
- (2) The hospital notifies CMS of the error via written correspondence or email, following the publication of the final rule, and CMS agrees prior to October 1 that an error was made.

For hospitals that meet the above criteria, the hospital or its representatives must provide documentation to CMS and the fiscal intermediary that criteria (1)-(2) have been met.

F. LTCH Changes

LTCH PPS Cost-To-Charge Ratios

To ensure that the distribution of outlier payments remains equitable, for FY 2006 a LTCH's overall Medicare cost-to-charge ratio is considered not to be reasonable if the value exceeds the combined (operating plus capital) upper (ceiling) cost-to-charge ratio thresholds calculated annually by CMS under the Hospital Inpatient PPS and published in the Federal Register. Effective for discharges occurring on or after October 1, 2005, the combined operating and capital upper limit (ceiling) on cost-to-charge ratios is 1.423 (1.254 plus 0.169). If the overall Medicare cost-to-charge ratio appears not to be reasonable, the fiscal intermediary should ensure that the underlying costs and charges are properly reported prior to assigning the appropriate combined Statewide average. The appropriate (combined) Statewide average cost-to-charge ratios for FY 2006 can be found in Tables 8A and 8B of the IPPS Final Rule.

LTCH Pricer, DRGs, and Relative Weights

The annual update of the long term care diagnosis-related groups (LTC-DRGs), relative weights and GROUPER software for FY 2006 are published in the annual IPPS final rule. The same GROUPER software developed by 3M for the Hospital Inpatient PPS will be used for the LTCH PPS. The LTCH Pricer was released to the maintainer on August 8, 2005.

- Version 23.0 of the Hospital Inpatient PPS GROUPER will be used for FY 2006, but the LTCH Pricer is updated with LTCH-specific relative weights reflecting the resources used to treat the medically complex LTCH patients.
- The annual update of the LTC-DRGs, relative weights, (geometric) average length of stay and 5/6th of the average length of stay (for short-stay outlier cases) for FY 2006 was determined using the most recent available LTCH claims data (FY 2004).

For those LTCHs paid under the transition blend methodology under §412.533, for FY 2006 we are using the rebased FY 2002-based excluded hospital market basket to update the reasonable cost-based portion of their payments. As stated in the August 12, 2005 FY 2006 IPPS final rule, the forecast for FY 2006 for the FY 2002-based excluded hospital market basket is 3.8 percent.

The LTC-DRGs, relative weights, (geometric) average length of stay and 5/6th of the average length of stay effective for discharges on or after October 1, 2005, can be found in Table 11 of this final rule and are in the LTCH PPS PRICER program.

REMINDER for LTCH PROV files: At a minimum, update the Fiscal Year Begin date field of the PSF. The LTCH Pricer cannot pull the 4/5th wage index if the FYB date is not updated.
