

Claims-Based Reporting Principles for E-Prescribing Incentive Program

The following principles apply for claims-based reporting of the e-prescribing measure:

- Report one of the three e-prescribing codes listed below as the claim numerator:
 - G8443 - “All prescriptions created during the encounter were generated using a qualified e-prescribing system.”
 - G8445 - “No prescriptions were generated during the encounter.”
 - G8446 - “Provider does have access to a qualified e-prescribing system and some or all of the prescriptions generated during the encounter were printed or phoned in as required by the State or Federal Law or regulations, patient request or pharmacy system being unable to receive electronic transmission; or because they were for narcotics or other controlled substances.”
- The e-prescribing code, which supplies the numerator, must be reported:
 - on the same claim as the denominator billing code
 - for the same beneficiary
 - for the same date of service (DOS)
 - by the same EP (individual NPI) who performed the covered service as the payment codes, usually ICD-9-CM, CPT Category I or HCPCS codes, which supply the denominator.
- The e-prescribing code must be submitted with a line-item charge of zero dollars (\$0.00) at the time the associated covered service is performed.
 - The submitted charge field cannot be blank.
 - The line item charge should be \$0.00.
 - If a system does not allow a \$0.00 line-item charge, a nominal amount can be substituted - the beneficiary is not liable for this nominal amount.
 - Entire claims with a zero charge will be rejected. (Total charge for the claim cannot be \$0.00.)
 - Whether a \$0.00 charge or a nominal amount is submitted to the carrier/Medicare Administrative Contractor (MAC), the e-prescribing code line is denied and tracked.
 - E-prescribing line items will be denied for payment, but are passed through the claims processing system to the National Claims History database (NCH), used for e-prescribing claims analysis. EPs will receive a Remittance Advice (RA) which includes a standard remark code (N365). N365 reads: “This procedure code is not payable. It is for reporting/information purposes only.” The N365 remark code does **NOT** indicate whether the e-prescribing code is accurate for that claim or for the measure the EP is attempting to report. N365 only indicates that the e-prescribing code passed into NCH.
- When a group bills, the group NPI is submitted at the claim level, therefore, the individual rendering/performing physician’s NPI must be placed on each line item, including all allowed charges and quality-data line items.

- Solo practitioners should follow their normal billing practice of placing their individual NPI in the billing provider field, (#33a on the CMS-1500 form or the electronic equivalent).
- Claims may **NOT** be resubmitted for the sole purpose of adding or correcting an e-prescribing code.

Submission Through Carriers/MACs

E-prescribing codes shall be submitted to carriers/MACs either through: Electronic submission using the ASC X 12N Health Care Claim Transaction (Version 4010A1), or via paper-based submission, using the CMS-1500 claim form.

Electronic Submission:

E-prescribing codes should be submitted in the **SV101-2** “Product/Service ID” Data Element on the **SV1** “Professional Service” Segment of the **2400 “Service Line” Loop**.

- It is also necessary to identify in this segment that a HCPCS code is being supplied by submitting the HC in data element SV101-1 within the SV1 “Professional Service” Segment.
- Diagnosis codes are submitted at the claim level, **Loop 2300, in data element HI01**, and if there are multiple diagnosis codes, in **HI02 through HI08** as needed with a single reference number in the diagnosis pointer.
- In general for group billing, report the NPI for the rendering provider in **Loop 2310B** (Rendering Provider Name, claim level) or **2420A** (Rendering Provider Name, line level), using data elements **NM108 and NM109**.

Paper-based Submission:

Paper-based submissions are accomplished using the CMS-1500 claim form (version 08-05). Relevant ICD-9-CM diagnosis codes are entered in Field 21. Service codes (including CPT, HCPCS, CPT Category II and/or G-codes) with any associated modifiers are entered in **Field 24D** with a single reference number in the diagnosis pointer **Field 24E** that corresponds with the diagnosis number in Field 21.

- For group billing, the NPI of the rendering/performing provider is entered in **Field 24J** and the TIN of the employer is entered in **Field 25**.

Timeliness of Quality Data Submission

Claims processed by the Carrier/MAC must reach the national Medicare claims system data warehouse (National Claims History file) by February 28, 2010 to be included in the analysis. Claims for services furnished toward the end of the reporting period should be filed promptly. Claims that are resubmitted only to add QDCs will not be included in the analysis.
