SUBJECT: New Patient Status Discharge Code 70 to Define Discharges or Transfers to Other Types of Health Care Institutions not Defined Elsewhere in the UB-04 (CMS-1450) Manual Code List

Effective Date: April 1, 2008

Implementation Date: April 7, 2008

I. GENERAL INFORMATION

A. Background: Several members of the National Uniform Billing Committee (NUBC) participated in a workgroup to ensure the clarity of the definitions of the patient discharge status codes. As a result of the meeting NUBC has redefined the patient discharge status code 05 to indicate a discharge/transfer to a designated cancer center or children’s hospital. In addition, a new patient discharge status code 70 was created in order for providers to be able to indicate discharges/transfers to another type of health care institution not defined elsewhere in the code list. NUBC will implement both of these actions effective April 1, 2008.

For Inpatient Prospective Payment System (IPPS) hospitals, the post-acute transfer payment policy will not apply to claims that contain patient discharge status code 70.

B. Policy: Field Locator 17 of the UB-04 and its electronic equivalent is a required field on all institutional claims. This code indicates the disposition or discharge status of the beneficiary on the submitted claim. The NUBC approved patient status code 70 and defined it as “discharge/transfer to another type of health care institution not defined elsewhere in the code list.” **This code is effective for use by providers for discharges dates on or after April 1, 2008.**

50.2.1 – Inpatient Billing From Hospitals and SNFs

(Rev.1361, Issued: 11-02-07: Effective: 04-01-08, Implementation: 04-07-08)

Inpatient services in TEFRA hospitals (i.e., hospitals excluded from inpatient prospective payment system (PPS), cancer and children’s hospitals) and SNFs are billed:

- Upon discharge of the beneficiary;
- When the beneficiary’ benefits are exhausted;
- When the beneficiary’s need for care changes; or
- On a monthly basis.

Hospitals in Maryland that are under the jurisdiction of the Health Services Cost Review Commission are subject to monthly billing cycles.

Providers shall submit a bill to the FI when a beneficiary in *one of these hospitals* ceases to need *a* hospital level *of* care (occurrence code 22). FIs shall not separate the occurrence code 31 and occurrence span code 76 on two different bills. Each bill must include all applicable diagnoses and procedures. However, interim bills are not to include charges billed on an earlier claim since the “From” date on the bill must be the day after the “Thru” date on the earlier bill.

SNF providers shall follow the billing instructions provided in Chapter 6 (SNF Inpatient Part A Billing), Section 40.8 (Billing in Benefits Exhaust and No-Payment Situations) for proper billing in benefits exhaust and no-payment situations.

Inpatient acute-care PPS hospitals, inpatient rehabilitation facilities (IRFs), long term care hospitals (LTCHs) and inpatient psychiatric facilities (IPFs) may interim bill in at least 60-day intervals. Subsequent bills must be in the adjustment bill format. Each bill must include all applicable diagnoses and procedures.

All inpatient providers will also submit a bill when the beneficiary’s benefits exhaust. This permits them to bill a secondary insurer when Medicare ceases to make payment. Initial inpatient acute care PPS hospital, IRF, IPF and a LTCH interim claims must have a patient status code of 30 (still patient). When processing interim PPS hospital bills, providers use the bill designation of 112 (interim bill - first claim). Upon receipt of a subsequent bill, the FI must cancel the prior bill and replace it with one of the following bill designations:

- For subsequent interim bills, bill type 117 with a patient status of 30 (still patient);
or
- *For subsequent discharge bills, bill type 117 with a patient status other than 30.*

All inpatient providers must submit bills when any of the following occur, regardless of the date of the prior bill (if any):

- Benefits are exhausted;
- The beneficiary ceases to need a hospital level of care (all hospitals);

- The beneficiary falls below a skilled level of care (SNFs and hospital swing beds;
or
- The beneficiary is discharged.

These instructions for hospitals and SNFs apply to all providers, including those receiving Periodic Interim Payments (PIP). Providers should continue to submit no-pay bills until discharge.
