SUBJECT: Revisions to Change Request 3816 – Low Vision Rehabilitation Demonstration

I. GENERAL INFORMATION

A. Background:

The purpose of the change request is to revise specific items within CR 3816. Specifically, the revisions will include identifying a new implementation date of April 3, 2006, identifying 6 demonstration locales that will participate in the demonstration, adding 2 ICD9-CM diagnosis codes, and corrections to terminology errors contained in the original CR 3816. For simplicity the business requirements will reflect changes in the language contained in CR 3816 since that is the original reference document.

The demonstration locales that will be participating in the demonstration are New Hampshire, New York City (all 5 boroughs), Atlanta, GA., North Carolina, Kansas, and Washington State. No other jurisdictions will be allowed to submit claims.

This change request is being submitted as an emergency because it is necessary to implement the demonstration no later than April 3, 2005.

B. Policy:

This change request will fully implement the Low Vision Rehabilitation Demonstration project described in CR 3816 including the changes contained herein.
